PROFILE

I am an industrious Developer having 3.5+ years of experience in Mulesoft REST API integrations. Mostly I have worked in Supply chain, Retail, and Pub-Sec. My responsibilities include Managing teams to maintain a high quality for software products by establishing good habits and practices and actively participating in code development.

WORK EXPERIENCE

- Having good experience in designing APIs with RAML, developing, testing, and deploying APIs
- In-depth hands-on experience with Anypoint Studio and Anypoint Platform
- Experience with Design Center, Anypoint Exchange, API Manager, and Cloudhub
- Deployed multiple projects in Runtime Manager using CI/CD and Anypoint Platform
- Implemented CI/CD with Jenkins, gitLab CI/CD, Octopus Deploy, and TeamCity
- Worked on Database, Salesforce, Amazon S3, Redshift, Anaplan, Anypoint MQ, SFTP, FTP, Object Store, Email, and HTTP Connectors
- Experience in using Git and Maven scripts for building and deploying applications in Cloudhub
- Experience in working with XMLs, CSV, and JSON
- In-depth experience in working with complex dataweave scripts
- Experience working with Mule 4+ and Mule 3.x versions
- Extensively worked with migrating projects from Mule 3.x to Mule 4+
- Experience in unit testing using MUnit
- Application integration experience using API-Led Connectivity
- Strong in Object-Oriented Programming concepts (OOPS) such as; Encapsulation, Inheritance, Polymorphism
- Good experience in Relational Database Management System (RDBMS) Concepts
- Excellent team player with leadership qualities
- Excellent communication and documentation skills

CERTIFICATION

- MuleSoft Certified Developer - Level 1
- MuleSoft Certified Platform Architect - Level 1
- Java SE 8 developer
