Objective

- Seeking a challenging opportunity with an organization which utilizes my skills & knowledge efficiently for growth.

Experience

- **Ntt Data** Oct-2023 - Present
Digital Engineering Engineer
 - Working as Mulesoft Developer
- **Apisero(an NTT Data Company)** Aug-2021 - Present
Senior Software Engineer
 - Develop the APIs which communicates with different applications.
 - Communicating with different vendor, provide technical assistance.
 - Take part in the design discussion of the APIs and provide solutions to the client.
 - Experience in building complex Mule Flows, Scopes, Error Handling strategies.
 - Experience in Message Filtration, Validations, Transforming and in Flow Controls.
- **Tata Consultancy Services** Aug-2019 - July-2021
Application Developer
 - Mapping client's requirements and coordinating in developing, implementing and transitioning process in line with guidelines specified by the client.
 - Acts at the point of contact in various leveraged accounts and locations.
 - Communicates with vendors, clients, and/or product line/ service representative as the point of contact in response to service request.
 - Researched reported issues to find the resolution through log analysis, problem replication, code debugging, knowledge base searches and peer collaboration.

Projects

- **Humana Inc (Go 365)**
Go365 is a personalized wellness and rewards program that helps individuals make healthier decisions and guides them on their well-being journey. Members can earn Points for completing various healthy lifestyle activities, including online educational assessments, preventive screenings, and fitness activities.
 - Built Sequence/Flow diagrams based on business processes/client requirements.
 - The project involves extensive work on DataWeave transformations.
 - Worked on transforming the data using DataWeave.
 - Experience in Cloudhub deployments.
 - Strong knowledge and hands-on experience in documenting and designing REST APIs using RAML.
 - Implement and test all the functionalities as per requirements.
 - Experience in MuleSoft Anypoint API platform on designing and implementing Mule.
 - Worked on DB/File Connectors.
 - Worked with Cloudhub Alerts to send custom alerts via e-mail.
 - Testing of APIs through postman and tabulating the results.
 - Implement proper Error Handling.
- **Ecommerce(Leading UK Based client)**
Integration from Oracle POS System to Client system via Mulesoft
 - Cloudhub Deployments
 - API-led Connectivity.
 - Documentation and Designing of REST API.
 - Dataweave transformations.
 - Implementation of proper Error Handling scenarios.

- Push all the logs events data to Datadog with proper information.
- RAML implementation of REST APIs.
- Use PGP Encryption for security enhancement.
- Apply various policies in API Manager as per client's requirement
- Add alerts in Runtime manager for different Scenario.
- Implement caching concept to reduce calls for token information.
- Take part in the design discussion of the APIs and provide solutions to the client.
- Implement CI/CD with Bitbucket to deploy applications.

- **Ecommerce(Leading UK Based client)**

Integration from Sfcc to Emarsys system for Customers,Products and Sales Data

- Complex Dataweave transformations to generate the file structure which is accepted at Destination side.
- Implement ETL Approach for FULL and Incremental Load and also cover all scenario.
- Implement different Error Handling for Scenarios if any of the daily run fails inform client by generating e-mails(Warning, Error,INFO).
- Documentation and Designing of REST API.
- RAML implementation of REST APIs.
- Use various complex dataweave functions to achieve the desired outcomes.
- Apply various policies in API Manager as per client's requirement
- Add Alerts in Runtime manager for different Scenarios.
- Use Sharepoint Connector and its operation.
- Take part in the design discussion of the APIs and provide solutions to the client.
- Implement CI/CD with Bitbucket to deploy applications.

- **Financial Services**

Implement more than 50 endpoints for a fund Manager Company with proper Error handling and log tracing.

- Establish connection with Backened Services (Using 2 way SSL)
- Use Dynamo DB and AWS Cloud watch.
- Implement Token Creation Logic which is used to verify a particular user request against that id.
- Replicate Functionalities implemtned in Google APIGEE to Any point API Manager.
- API-led Connectivity.
- Documentation and Designing of REST API.
- Implement Mulesoft Best practices.
- Implement CI/CD for deployments.

- **Hospitality Industry**

Transfer all the data Historical and delta load to Salesforce system from Oracle(OHIP) and from one more source system

- Built Sequence/Flow diagrams based on business processes/client requirements.
- Implement and test all the functionalities as per requirements.
- Apply various policies in API Manager as per client's requirement.
- API-led Connectivity.
- Take part in the design discussion of the APIs and provide solutions to the client.
- Worked on Salesforce bulk upsert and Salesforce composite connector.
- Use various complex dataweave functions to achieve the desired outcomes.
- Documentation and Designing of REST API.
- Implement Mulesoft Best practices.
- Implement CI/CD for deployments.

- **Ecommerce**

Integration between Hubspot and Kimble(Salesforce) system via mulesoft.

- API-led Connectivity.
- Documentation and Designing of REST API.
- Take part in the design discussion of the APIs and provide solutions to the client.
- Implement CI/CD with Bitbucket to deploy applications.
- Testing of APIs through postman and tabulating the results for positive and negative scenario's.
- Use various complex dataweave functions to achieve the desired outcomes
- Implement Mulesoft Best practices
- Worked on munits part to cover exception scenario's.

Skills

- Mulesoft | RAML | WSDL | SOAP/Restful web services | Anypoint Studio | C | C++ | Core Java | SQL | PL/SQL | Dataweave | Problem Solving | Data warehousing | Hive

Education

- **Panipat Institute Of Engineering and Technology** 2015-2019
B.tech(CSE)
- **S.D Vidya Mandir Public School** 2014-2015
12th
- **S.D Vidya Mandir Public School** 2012-2013
10th

Industrial Trainings

- JAVA certification from ICSD Infotech, Panipat

Certifications

- Microsoft Certified: Azure Fundamentals(AZ-900), Azure Data Fundamentals (DP-900)
- Mulesoft Certified: Mulesoft Certified Developer, Mulesoft Integration Associate

Honours

- Appreciation Certificates: Client (Apisero, TCS)

Hobbies

- Fitness Enthusiast | Coding | Listening Songs | Cricket
