📍 PathaKalava centre, Mogalthur,
West Godavari,
Andhra Pradesh- 534281

Experienced MuleSoft developer with 3+ years of hands-on experience, seeking to leverage expertise in MuleSoft development and integration solutions to contribute to innovative projects. Seeking a challenging role where I can utilize my expertise in API integration tools to design, develop, and maintain scalable API-centric applications.

TECHNICAL SKILLS

Anypoint Platform : Anypoint API Manager, Runtime Manager, Anypoint studio, Design Center(RAML 1.0) **Tools &**

Technologies : Anypoint Platform, IBM MQ Explorer, DB Visualizer, Postman, Jmeter, SoapUI

CI/CD : GitHub, Bamboo

IDE : Anypoint Studio, IBM Integration Tool Kit

Languages : Dataweave 2.0, ESQL

PROFESSIONAL SUMMARY

- MuleSoft developer with proficient in designing, developing, implementing, and supporting integration solutions using MuleSoft Anypoint Platform.
- Good technical experience on various components of Anypoint platform like Anypoint Design Center, API Manager, Runtime Manager, Anypoint monitoring, Anypoint Exchange.
- Good at dataweave scripts and having hands-on experience on both Mule 3.x and Mule 4.x.
- Working experience on complete Software Development Life Cycle (SDLC) from Software Requirement Specification to development, operation and maintenance.
- Experienced in working in an agile development environment.
- Experience in building complex Mule Flows, Scopes, Error Handling Strategies, Validation, Transformation, Flow Controls and Unit Testing. Created custom dashboards and alerts in ELK.
- Proficient in various Mule connectors such as SAP, IBM MQ, Database, SFTP, Azure Event Hub etc.
- Experience in designing and developing RAML based REST APIs.
- Good hands-on experience in IBM Integration Bus to implement business logic and data transformation. Worked with ESQL scripts, transformations and integrations with various backend systems.
- Strong problem-solving skills and a collaborative team player with efficient communication abilities.

EXPERIENCE

09/2021 - Present ● Senior Systems Engineer

Hyderabad Infosys Limited

PROJECTS

IIB to Mule 4.x Migration

- Worked extensively on migrating DP/IIB interfaces to Mule 4.3 in an efficient way.
- Designed and Developed the Mule flows by understanding the existed DP/IIB flows with functional enhancement, code optimization and efficiency.
- Migrated ESQLE transformations to dataweave 2.0 .
- Unit Testing and validation of Mule flows are done by MUnit TestCases and load testing are done using JMeter
- Deployed applications in the Runtime Manager of Anypoint platform by Bamboo pipeline process.
- Secured Mule APIs with client-id enforcement policies, OAuth2.0 as per the business requirements.
- Developed common APIs which are re-used throughout the project.
- Monitored the APIs, involved in intensive debugging for Code fixes and performance enhancement and of APIs.
- Had Good Hands-on experience on tools such as IBM Integration tool kit , Anypoint Studio ,IBM MQ Explorer JMeter and various connectors such as IBM MQ, SAP, Database, SFTP.
- Participated actively in supporting QA testing and production promotion movement.

ENTERPRISE INTEGRATIONS

- Designed and developed complex Mule APIs to connect diverse applications and systems within the enterprise architecture by gathering requirements from stakeholders.
- Created API specifications using RAML and appropriate taxonomies to clearly define interfaces and facilitate collaboration between development teams.
- Implemented API-led connectivity approach to expose backend services as reusable APIs, promoting scalability and agility.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives to drive project success and continuous improvement.
- Developed APIs which contains Object-store, SFTP, scheduler driven flows.
- Had Good hands-on experience in creating custom dashboards and alerts for business critical APIs using ELK.
- Migrated Mule 3.x APIs to Mule 4.x with highest quality and standards.
- Participated actively in supporting QA testing and production promotion movement.
- Deployed applications in the Runtime Manager of Anypoint platform by GitHub Actions.
- Contributed to the documentation of integration solutions, API specifications, and technical diagrams to facilitate the knowledge sharing and maintain system documentation.

CERTIFICATIONS

MuleSoft Certified Developer - Level I (Mule 4)

HONOURS

Gracias Award – Rock Star

To recognise a star performer in the team for constantly taken care of the needed deliverables and for improving the effectivity and performance of business critical API's.

EDUCATION

2017 - 2021

Bachelor of Engineering

GVIT Engineering College
