Database(s) known	:	SQL
Other Interests	:	Android, Computer Networking

PROJECTS UNDERTAKEN

1. Project Name: DoFromHome(Website)		
Environment :	:	Windows
Language/Database	:	HTML,JAVA Script, CSS, Php.
Project description	:	<ul style="list-style-type: none">• This website will be directly connected to orphanage where user can simply donate any type of good, material from the comfort of their home. User of this website will just have to fill a small form in which he/she has to fill some personal details and what he/she wants to donate.• This app will also help to give jobs. Users will not have to go outside for donation which will save their time.

2. Project Name :LeWork(Website)		
Environment :	:	Windows
Language/Database	:	HTML,JAVA Script, CSS, Php.
Project description	:	<ul style="list-style-type: none">• With the help of this website user is able to get contact details of fully verified worker so that he/she can contact them and book them for the work they wanted to be done. We have seen many migrant workers have to work under jobbers due to which they have to pay 50 -60% of their earnings to jobbers, but with this website they could get work directly by the user and they don't need to pay money to anyone from their earning. Workers will get their unique id after verification so that they could use website or calling feature.

3. Project Name: Gossip (Chatting app)		
Environment :	:	Windows
Language/Database	:	Java , Firebase.
Project description	:	<ul style="list-style-type: none">• This project will help to chat with people. This app has various Sign in /Signup options like Gmail, Facebook, phone number.
