OBJECTIVE

Seeking a technically challenging position as a MuleSoft & API developer with an organization that provides ample amounts of opportunities to learn, grow and contribute. I am very determined to excel and exceed client expectations.

PROFESSIONAL SUMMARY

- Have 3+ years of work experience in MuleSoft, Core Java, Mule ESB, Rest API, web services, application security, database, JMS/MQ and development.
- Good understanding of best practices to be followed for application security and designing API.
- Good exposure in CI/CD with Azure and Jenkins.
- Experience in Munit and Integration test cases writing.
- Good exposure of version control mechanism using git.
- Experience in all phases of Software Development Life Cycle (SDLC) with development of applications using agile methodology.
- Designing architectural documents and strategies for the entire project.
- Leading the team of developers to ensure timely completion of the project.
- Expertise in integrating applications and developing complex integration flows in Mule ESB by implementing and defining middleware architecture.
- Delivering solutions by implementing various functionalities of MuleSoft like Data transformations, Connectors, Data Validations, Error Handling, etc.
- Experience in integrating Cloud applications like SFDC.
- Designed applications using API-led methodology.
- Experience in consuming web services, error handling & connecting to different resources.
- Experience in designing RAML, OAS to describe RESTful APIs.

TECHNICAL SKILLS

Technologies	Mule ESB, RAML, DW 2.0, Azure DevOps, Core Java, SQL, Salesforce (beginner)
Web Technologies	XML, JSON
Database and Tools	My SQL, XAMPP

IDE	Anypoint Studio, Eclipse
Version Control Tools	Git, github, Bitbucket
Unit Testing Tool	Munit
Other Tools	WinSCP, Postman, Rest Client, JMS ActiveMQ, Jira, draw.io, Kleopatra, Draw.io(Archimate Diagram), Confluence, Beyond Compare

CERTIFICATIONS & COURSES

- Azure Fundamentals (Microsoft – Jan. 2022)
- MuleSoft Certified Integration Architect Level 1 (Mule 4) (MuleSoft – Aug. 2021)
- MuleSoft Certified Platform Architect Level 1 (Mule 4) (MuleSoft – May. 2021)
- MuleSoft Certified Developer Level 1 (Mule 4) (MuleSoft – March. 2021)
- MCD API Design Associate Level 1 (Mule 4) (MuleSoft – Nov. 2019)
- MuleSoft Certified Developer Level 1 (Mule 4) (MuleSoft – Oct. 2019)
- Programming in C++ (NPTEL – Aug. 2018)
- Problem Solving Through Programming in C (NPTEL – Jul. 2018)

PROFESSIONAL EXPERIENCE (2)

1. Billennium India Pvt. Ltd. (From Dec 2021 - Till Date)

Working as a MuleSoft Developer (Professional Integration Developer)

2. Apisero Global Integration Solutions Pvt Ltd (From Sept 2019 - Dec 2021)

Worked as a MuleSoft Developer (Lead Engineer)

PROJECT EXPERIENCE (6)

Client : Companion Protect **April 21 - December 21**
Role : Senior Solution Consultant
Technologies : Mule ESB, Anypoint Studio, CloudHub, Salesforce, UI, Confluence, Azure DevOps
Team size : 5

Project Description :

Companion Protect offers affordable, easy-to-understand (and use) pet insurance for dog and cat parents across the country(USA).

- 1 We have provided backend APIs to the UI for creating and fetching insurance-related quotes and enrollment applications in Salesforce.
- 2 We implemented two-way sync up of Salesforce and Database.
- 3 We used Okta as a client-provider for authentication to the external consumer.

Roles & Responsibilities:

- Designing architectural documents and strategy of the entire project.
 - Leading the team of developers to ensure timely completion of the project.
 - Understanding Requirement, Design, and Coding.
 - Delivering solutions by implementing various functionalities of MuleSoft like Data transformations, Connectors, Data Validations, Error Handling, etc.
 - Providing post-implementation, enhancement, and maintenance support
 - Mentored the new members of the team and was involved in transferring knowledge to them.
 - Responsible for implementing Unit test cases and CICD.
 - Communication with clients regularly to update them about the progress and get to understand iterations, if any.
 - Creation of technical documentation and user specifications in accordance with approved standards.
 - End-to-end supervision of the project.
-

Client	:	Mevotech	February 21 - April 21
Role	:	Senior Solution Consultant	
Technologies	:	Mule ESB, Anypoint Studio, CloudHub, GitHub, Salesforce, Azure DevOps	
Team size	:	3	

Project Description :

In this project, we integrated Salesforce with the client's on-prem system.

If the mule flow receives a request from the client's on-prem system then, it updates or creates the record with attachment in Salesforce.

If something fails during the whole process, then it deletes created records.

Roles & Responsibilities:

- Designing architectural documents and strategy of the entire project.
- Leading the team of developers to ensure timely completion of the project
- Understanding Requirement, Design, and Coding.
- Delivering solutions by implementing various functionalities of MuleSoft like Data transformations, Connectors, Data Validations, Error Handling, etc.
- Providing post-implementation, enhancement, and maintenance support
- Mentored the new members of the team and was involved in transferring knowledge to them.
- Responsible for implementing Unit test cases and CICD.
- Communication with clients regularly to update them about the progress and get to understand iterations, if any.
- Creation of technical documentation and user specifications in accordance with approved standards.
- End-to-end supervision of the project.

Client : Marine Credit Union
Role : Solution Consultant
Technologies : Mule ESB, Anypoint Studio, CloudHub, GitHub, Salesforce, Database
Team size : 4

November 20 - January 21

Project Description :

This project involves integration between on-prem databases with Salesforce.

At specific timing, mule flow was fetching the records from the store procedure, and it updates or creates the record in Salesforce.

To avoid rate limiting, we had implemented manually caching in this project.

Roles & Responsibilities:

- Designing architectural documents and strategy of the entire project.
- Leading the team of developers to ensure timely completion of the project
- Understanding Requirement, Design, and Coding.
- Delivering solutions by implementing various functionalities of MuleSoft like Data transformations, Connectors, Data Validations, Error Handling, etc.
- Providing post-implementation, enhancement, and maintenance support
- Mentored the new members of the team and was involved in transferring knowledge to them.
- Responsible for implementing Unit test cases and CICD.
- Communication with clients regularly to update them about the progress and get to understand iterations, if any.
- Creation of technical documentation and user specifications in accordance with approved standards.
- End-to-end supervision of the project.

Client : Saint Gobain

October 20 - November 20

Role : Solution Consultant

Technologies : Mule ESB, Anypoint Studio, CloudHub, GitHub, Salesforce, NetSuite

Team size : 3

Project Description :

In this project, We have performed large scale integration between SFTP Server with Salesforce.

Depending on events, the flow picks the files from the SFTP directory and processes them according to the logic. After all processing, it updates or creates records in Salesforce.

In the case of failure, we had implemented retry logic.

Roles & Responsibilities:

- Involved in the development and design of the product from scratch using MuleSoft.
- Involved in the requirement gathering phase.
- Involved in the daily stand-up calls and provided input whenever needed.
- Monitoring and resolving issues under deadline.

Client : Credit Karma **April 20 - October 20**
Role : Software Engineer
Technologies : Mule ESB, Anypoint Studio, CloudHub, GitHub, Bitbucket, Salesforce, NetSuite, SFTP
Team size : 3

Project Description :

- 1 The client required real-time integration between NetSuite and Salesforce. Every day the flow picks the new or updated records from NetSuite and pushes them into the Salesforce. If the record failed during sync up, then the error message should update in the NetSuite.
- 2 We performed the integration between NetSuite to Concur SFTP Server. Every half an hour, the flow picks the data from NS Saved Search and encrypts the data, then pushes that into SFTP Server.

Roles & Responsibilities:

- Involved in the development and design of the product from scratch using MuleSoft.
 - Involved in the requirement gathering phase.
 - Involved in the daily stand-up calls and provided input whenever needed.
 - Monitoring and resolving issues under deadline.
-

Project : Zoho Integration with Resource Guru **January 20 - April 20**
Client : Apisero Internal Project
Role : Software Engineer
Technologies : Mule ESB, Anypoint Studio, CloudHub, GitHub, Webhook, Workflow
Team size : 2

Project Description :

In this project, we performed the real time integration between Zoho people and Resource Guru. Whenever the record gets added or updated into the Zoho, then it should update or create the same in resource guru.

Roles & Responsibilities:

- Involved in the requirement gathering phase.
- Involved in the design, development, deployment, and testing of product
- Providing post-implementation, enhancement, and maintenance support
- Mentored the new members of the team and was involved in transferring knowledge to them.

TRAININGS

- Individual Development Plan (IDP) (4C Training – Sept. 2019)
- Customer Hosted Runtime Environment (Apisero Inc – Sept. 2021)
- Fast Track Hercules Training Program (Apisero Inc – Nov. 2020)
- Dataweave 2.0 (Apisero Inc – Apr. 2020)
- Programming in JAVA (Hefshine Softwares – Apr. 2019)

ACADEMIC QUALIFICATION

S. N.	COURSE	YEAR OF PASSING	AGGREGATE(%)	SCHOOL/COLLEGE
1.	BE	2019	61.13	VIIT Pune.
2.	DIPLOMA	2015	78.13	NIELIT Aurangabad.
3.	SSC	2012	82.36	NHS Aurangabad.

HOBBIES

- Networking
- Reading books
- Watching web series

EXTRACURRICULAR ACTIVITIES AND ACHIEVEMENTS

- **Received \$100 Amazon gift voucher from Companion Protect client (Aug 2021)**
- **ACE of ACES Award at Apisero (Q1, 2020)**
- **Raving Review Award at Apisero (04 Nov 2021)**
- Raving Review Award at Apisero (15 June 2021)
- Raving Review Award at Apisero (19 March 2021)
- **Won Mulesoft training voucher at Warsaw Virtual MuleSoft Meetup (29 Jan 2021)**
- Won Mulesoft training voucher at Helsinki Virtual MuleSoft Meetup (23 Jan 2021)
- Won Mulesoft training voucher at Ghaziabad Virtual MuleSoft Meetup (24 Oct 2021)
- **Good Deed Award at Apisero (22 June 2021)**
- Good Deed Award at Apisero (18 March 2021)
- **ACE Award at Apisero (12 March 2021)**
- ACE Award at Apisero (15 Jan, 2021)
- ACE Award at Apisero (22 Oct, 2020)
- ACE Award at Apisero (01 Sept 2020)
- **Conducted several technical interviews at Apisero (Aug 2021)**
- Conducted several technical interviews at Apisero (Oct 2020)
- Conducted several pre-interview screening tests at Apisero (July 2020)

- **First in the “Core Java” test at Hefshine Software (June 2019)**
- **First in the “Aqualympics” competition at COEP Pune (Sept 2016)**

I hereby declare that the information and particulars stated above are true and correct to the best of my knowledge and belief.
