## Profile

---

I am a recent graduate ready to contribute to the working world. I have a broad skill set that includes product management, product strategy, technical expertise in C++, front-end web development, and SQL database management. Strong communication and presentation abilities, along with my capacity to analyze client demands and convert them into workable plans, enable me to efficiently interact with teams and explain difficult ideas to a variety of audiences.

## Education

### Online Health appointment booking Site

I have designed and developed an intuitive online health appointment website using HTML, CSS, JavaScript, Node.js, DBMS and SQL also. This platform allows users to easily schedule and manage their medical appointments, providing a seamless and efficient experience for both patients and healthcare providers. This project demonstrates my ability to merge technical expertise with a user-centric approach to deliver innovative and practical solutions.

**My portfolio**

personal portfolio using HTML, CSS, and JavaScript, showcasing my skills and projects. The portfolio exhibits my proficiency in front-end web development and demonstrates my ability to create visually appealing and interactive websites.

**SEO Optimization Project**

Describe how you improved website's search engine ranking through on-page and off-page SEO techniques. Include specific keywords targeted and the resulting increase in organic traffic

**Declaration**

---

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge and belief.
