Experience

ServiceNow Developer - Avanzens Consultancy Services LLP (September 2023 - Present)

- Working as a ServiceNow Developer in ServiceNow technology, specializing in Table API integration, Client Scripts, UI policies, Business Rules, Schedule jobs, GlideRecord, GlideAjax, Flow Designer, Incident Management, Script Includes, ACL, SLA management.
- Collaborated on building and optimizing workflows, improving ServiceNow tool efficiency, and implementing best practices in Incident Management.

Certifications

Certified System Administrator (CSA) - ServiceNow (August 2024)

- Completed CSA certification, gaining in-depth knowledge of ServiceNow platform, including workflow creation, business logic implementation, and overall platform capabilities.

Vitual Internships

CodeAlpha - Java Programming Intern (May 2024)

- Developed an **quiz platform** with user registration, quiz creation, and answer tracking.
- Created a basic **banking application** using fundamental Java concepts enabling basic banking operations like deposits, withdrawals, and balance checks.
- Designed a **travel itinerary planner** allowing users to input destinations, dates, and preferences, generating detailed plans with budget calculations, room search, reservations.

CodSoft - Java Programming Intern (April 2024)

- Developed a **number guessing game** with user feedback, allowing multiple rounds and limited attempts.
- Created a Java program to **calculate total marks**, average percentage, and assign grades based on input marks.
- Designed an **ATM machine interface** with options for withdrawing, depositing, and checking balance, ensuring input validation and appropriate message display.

CodSoft - Web Development Intern (March 2024)

- Developed a stunning **landing page** with HTML and CSS, ensuring proper alignment, clean layout, and user-friendly design.
- Created a **personal portfolio** with sections for header, about, skills, projects, resume download, and contact using HTML and CSS.
- Implemented a **basic calculator** with HTML, CSS, and JavaScript, featuring basic calculator functionalities

Projects

Real Estate Application (December 2024)

React Native, Appwrite, Google Authentication, JavaScript, NativeWind

- Developed a mobile app for real estate listings with secure Google Authentication via Appwrite.
- Implemented core features: property listings, details screen, explore filters, and user profile management.
- Used NativeWind for styling and Appwrite Database for efficient property data storage and retrieval.
- Followed best practices in state management, routing, and UI/UX for scalable, user-friendly development.

Interactive Dashboard Application (July 2024)

Next.js, React.js, TypeScript, HTML5, CSS3, Chart.js

- Implemented multiple widgets displaying dynamic data such as line charts, bar charts, tables, and statistics with a settings page for users to configure dashboard preferences and data filters.
- Integrated with a mock API to populate the dashboard with dynamic data.
- Deployed the application to Vercel, ensuring a seamless user experience.

Movie-Critics (March 2024)

MySQL, Express, React.js, Node.js, Vercel, Sequelize

- Movie Critics is a web application designed for users to add new movies with their release dates.
- It provides reviews, ratings, and comments on existing movies. Deployed the application to Vercel, ensuring a seamless user experience.

SocialConnect (February 2024)

MERN stack (MySQL, Express, React.js, Node.js)

- Application offers post creation, liking, commenting, and user profile management.
- Utilizing JWT for authentication, it ensures secure registration and login functionalities.
- Application provides seamless user experience across backend, frontend, and database management.

ECommerce Website (October 2023)

Spring Boot, Node.js, Hibernate, MySQL, React.js, Restful API

- Established a feature-rich eCommerce website similar to Flipkart, facilitating browsing, order placement, and seller management.
- Installed a user-friendly customer interface for browsing, cart management, and order processing.
- Executed a secure seller portal for efficient product management and order processing.

To-Do List (January 2024)

React.js, Node.js, cache/cookies

- Features include task creation, editing, and deletion with real-time updates having intuitive user interface with responsive design.
- Utilized React hooks and functional components for performance optimization.

Inventory-Management-System (August 2023)

Spring Boot, Node.js, Hibernate, MySQL, React.js, Restful API

- Designed and developed a feature-rich inventory-management system with billing functionalities.
- Enabled customers to browse products, place orders, and provided sellers with an intuitive interface.
- Managed product browsing, cart, and order processing for customers, and efficient product management for sellers.

Skills

- **Programming Languages:** Java, HTML, CSS, JavaScript, TypeScript, C, C++
- **Frameworks:** Next.js, Spring Boot, Spring, Hibernate, J2EE, Node.js, React.js, .NET
- **Database:** MySQL, MongoDB
- **Version Control:** Proficient in GIT and version control best practices.
- **Other:** Full Stack Development, MERN Stack, Data Structures and Algorithms (DSA), GitHub, Git, Docker
- **ServiceNow:** Table API integration, Client Scripts, UI policies, Business Rules, Schedule jobs, GlideRecord, GlideAjax, Flow Designer, Incident Management, Script Include, ACL, SLA
- **Teamwork:** Effective team player with excellent collaboration skills

Education

Postgraduate Diploma, Diploma In Advanced Computing (DAC)

SunBeam Institute of Information Technology, Pune

August 2023

Bachelor of Engineering (B.E) in Mechanical Engineering

Finolex Academy Of Management and Technology, Ratnagiri

December 2020

Higher Secondary Certificate (HSC) In Science

Abhyankar Kulkarni Jr. College , Ratnagiri

February 2016

Honors and Awards

- Recognized as one of the ten **Best Interns for May 2024** at **CodeAlpha**.
- **Hackathon : March 2023:** Participated in one-day Hackathon at Sunbeam, Pune.
- **Hackathon : June 2023:** Won second prize in one-day Hackathon in at Sunbeam, Pune.
