

BHARGAVI KONDAPALLY

+1 (469)238-5301. Dallas, United States

bkondapallyus@gmail.com

An Integration developer having skills in analyzing business scenarios and implementing solutions. Am a quality-conscious hard worker with good team player skills. Close to 6 years of experience on Mulesoft and IIB platforms. **Mulesoft Certified Developer and Platform Architect Level 1.**

EXPERIENCE

JULY 2022 – DEC 2022

MULESOFT INTEGRATION ADMIN, AL MASRAF BANK, DUBAI

- Working experience in the RTF appliance model directly with the client network teams. Moreover, have good working knowledge of RTF architecture including self-managed Kubernetes.
- Knowledge of setting up the RTF environment from scratch like registering in Anypoint platform and updating the generated config file inside VM including the license detail and validating the node health in the Ops center.
- Configured and managed Anypoint Runtime Fabric Clusters (controller and worker nodes) to ensure high availability and performance.
- Configuring the Anypoint platform, and management of roles and accesses, patch and upgrade management helped the client to move from their legacy systems to Mulesoft.
- Experience in providing production support in monitoring the health and performance of mule applications and environment.
- Experience in performing code reviews and working on go-live projects to production.
- Maintained detailed documentation in confluence regarding the platform configurations, integration designs, and troubleshooting processes which would help onboarding of new team members.
- Implemented security measures like OAuth2.0, and API key management resulting in enhanced data protection.
- Integrating different systems with APIs calls with XML-JSON transformations.
- Knowledge in externalizing mule application logs to ELK and setting up dashboards in Kibana which helps in debugging and troubleshooting production issues for Mulesoft integrations.
- Basic knowledge of Salesforce Admin.
- Experience in creating reusable artifacts and following the best practices guidelines in the Mulesoft Anypoint Platform.
- Have a very good understanding, knowledge, and experience with Cloudhub 1.0 and 2.0 architectures and features including private space and shared space.

2021 – MAY 2022

MULESOFT DEVELOPER, NEWYORK LIFE, TCS, INDIA

- Designed and developed different flows using different connectors namely HTTP listener, FTP/SFTP, ServiceNow, Salesforce, Database, File, etc.
- Experience in building and implementing custom policies.
- Managing performance of the services by using “scatter-gather” and “choice” routers, also managed a high volume of input using “batch processing”.
- Managing APIs in Anypoint API manager by creating proxies for Mule applications, and applying standard and custom policies.
- Experience in developing MUnit flows using different Munit connectors to test scenarios for mule flow.
- Deploy code to different environments using CI/CD tools GITHUB, Maven and Jenkins etc

2019 – 2021

MULESOFT CONSULTANT, NEWYORK LIFE, TCS, INDIA

- Working experience in the CloudHub environment.
- Learnt RAML and got familiarized with API-led connectivity and API life cycle in Mulesoft.
- Started working on Mule 4, Design Center, API Manager, and Runtime Manager in Anypoint Platform.
- Implemented APIs using an API-kit router in Anypoint Studio.
- Utilized Data weave to transform different forms of data to the desired output.
- Learned to work on Anypoint Runtime Manager to deploy applications and trace logs. Deployed updated APIs to exchange which can be reused by other developers.

2017 – 2019

MIDDLEWARE DEVELOPER, NEWYORK LIFE, TCS, INDIA

- As a fresher learned middleware technology IBM Integration Bus and learned how the integration works in real-time while developing flows for Insurance projects.
- Created message broker components like a broker, configuration manager, and broker domains in the toolkit.
- Developed message flows to integrate between different systems. Also troubleshooting using MQ and MB error logs, event viewer, etc.

EDUCATION

JUNE 2013-2017

COMPUTER SCIENCE ENGINEERING, MAHATMA GANDHI INSTITUTE OF TECHNOLOGY, HYDERABAD, INDIA

GPA 72%

SKILLS

Mule 4.x, Anypoint Studio, Anypoint API Designer, Anypoint API Manager and Runtime Manager, RAML, Dataweave, IIB V10, Java, REST, JSON, MS SQL, GIT, GitHub

LICENSES AND CERTIFICATIONS

- Mulesoft Certified Platform Architect Level 1
- Mulesoft Certified Developer Level 1 – Mule 4 (Renewed)
- Salesforce Certified Associate
- Microsoft Certified Azure Fundamentals

ACTIVITIES

- Cooking special dishes (especially biryani), more than cooking I love to eat.
- Sketching at times.
