

# Dileep Gunaga

Software Developer

8762795278  
dileepgunaga2021@gmail.com  
Bangalore, Karnataka

## EXPERIENCE

Intern Laravel Developer Sash Info Service Pvt Ltd, Bangalore - Bangalore, India 01/2023 - 03/2023  
There were five people on the team, and it was a pure Laravel developer team. The team lead had assigned a single part of the project, which was a Zoho project. I was given a task where the trainer had created a document and shared it with the student, and the student had to call the trainer for assistance. I had used a slug to enable the student to download it. I have completed this task.

Software Developer 07/2021 - 10/2022  
Shiv Kirpa Multi Solutions (Shivkms) - Delhi, India  
I used the PHP framework CodeIgniter for web development in the company, working to meet the requirements provided by the client. The design was created according to their request, and I worked on two projects. In these projects, I was involved in the admin panel, connecting both the front end and back end. In the job portal project, I worked on both the front end and back end.
