

Gayatri Shevgan

React.js Developer /shyena tech yarns pvt ltd

Address: Pune, Maharashtra, 411057

Phone: +91 8856823937

E-mail: gayatri.shevgan03@gmail.com

Profile Summary

- **Implemented dynamic and responsive user interfaces** using React.js, ensuring a seamless user experience across devices also **Possess end-to-end experience** in designing and deploying front-end applications with **state management** tools like Redux and Context API.
- Experience with **RESTful APIs** and **GraphQL** for efficient data fetching and integration with
- **Expertise in JavaScript (ES6+), HTML5, CSS3, and modern UI frameworks** such as
- Implemented data **clean-up processes and analyzed data integrity problems**
- **Experience with modern tools and workflows** such as **Webpack, Babel, npm, and Yarn** for application bundling and dependency management.
- Hands-on experience in **optimizing front-end performance** by leveraging techniques like code splitting, lazy loading, and browser caching.
- Excellent Interpersonal and communication skills, efficient time management and organization skills, ability to handle multiple tasks and work well in a team environment

Skills

• React.js, JavaScript, HTML5, CSS3	<div><div></div></div> Very Good
• Redux, Context API	<div><div></div></div> Very Good
• Material-UI, Tailwind CSS, Bootstrap	<div><div></div></div> Very Good

Achievements & Certifications

- 2024 - 2025
- Spotlight Award (recognized for outstanding performance and significant contributions to the team).
- 2022 - 2024
- Full stack in Java / React Development (*The certificate was issued after the completion of a course in React development from seed infotech.*)
 - Jira Udemy Certificate
 - React Udemy Certificate

Academic Details

- 2021 - 2023
- Master of Computer Application: Information Technology
MIT College of Engineering Aurangabad
- 2018 - 2021
- Bachelor of Computer Application
Dr. Babasaheb Ambedkar Marathwada University

Work History

March 2024
to
Present

React Developer Trainee
Shyena Tech yarns,Pune
Project: Intelicono
Industry Segment: Data science

Project Description:

An AI-powered speech analytics and automation platform enabling businesses to process and analyze 100% of recorded customer conversations. The platform provides deep insights into customer buying patterns, intents, sentiments, and feedback, helping businesses automate workflows, improve team performance, accelerate sales, enhance debt collection processes, and boost customer experience while ensuring compliance.

Responsibilities

- **Interactive Dashboard Development:** Designed and implemented dynamic dashboards for visualizing agent performance, customer information, and key performance metrics using React.js.
- **Data Visualization:** Built intuitive graphs, charts, and category-based insights, enhancing the user experience and providing actionable data analytics.
- **Component Development:** Created reusable and modular React components to streamline development and ensure maintainability.
- **API Integration:** Integrated RESTful APIs for real-time data fetching and display of customer insights.
- **UI Optimization:** Enhanced UI responsiveness and accessibility to deliver a seamless experience across devices.
- **Collaboration:** Worked closely with cross-functional teams to align front-end design with business goals and improve workflow automation.
- **Technologies Used:** React.js, JavaScript, HTML5, CSS3, Material-UI, Redux, RESTful APIs
