

### Professional Summary

Skilled MERN Stack Developer with over 1+ years of experience in building scalable, dynamic, and user-centric web applications. Expertise in React.js for front-end development, Node.js for back-end development, and MongoDB for database management. Proven ability to integrate third-party APIs and collaborate effectively with cross-functional teams to deliver seamless full-stack solutions.

### Professional Experience

#### MERN Stack Developer

STRIDEZ SOLUTIONS INDIA | July 2023 – Till now

- Developed reusable React.js components for a CMS application, improving development efficiency and scalability.
- Integrated Node.js backend with RESTful APIs for seamless dynamic content management.
- Optimized front-end and back-end interactions to ensure cross-platform compatibility and improve application performance.
- Applied Agile development practices to meet sprint deadlines and collaborate with team members effectively.
- Built a service provider platform connecting customers with vendors using React.js for the front-end and Node.js for backend integration.
- Designed reusable UI components with Material-UI for a consistent and responsive interface.
- Integrated third-party APIs for real-time service tracking and secure user authentication.
- Collaborated with QA engineers to resolve bugs and ensure application reliability.

### Technical Skills

Front-end Development	: React.js, HTML5, CSS3, JavaScript, Bootstrap, Material-UI, Ant Design
Back-end Development	: Node.js, Express.js
Database Management	: MongoDB, MySQL, Firebase
State Management	: Redux, Context API
API Integration	: RESTful APIs, Axios
Version Control & Tools	: Git, Visual Studio Code, Postman, Jira
Development Practices	: Agile, Unit Testing (Jest, React Testing Library)
Authentication & Security	: OAuth, JWT
Other Tools & Frameworks	: Redis, Firebase, Material-UI, Ant Design

## Educational Qualification

B.Com., IT in Nehru Arts and Science college | 2023 | 62%

## Projects

### E-Commerce Platform

- **Description:**
  - Developed a full-stack responsive e-commerce application with product listings, a shopping cart, and secure payment gateway integration.
- **Technologies Used:** React.js, Node.js, MongoDB, Redux, OAuth, Firebase

### Work Order Management System

- **Description:**
  - Designed a task management system with features like role-based user management, real-time notifications, and interactive dashboards.
- **Technologies Used:** React.js, Node.js, MongoDB, Express, REST APIs, Material-UI

### CMS Application

- **Description:**
  - Built a content management system with React.js for the front-end and Node.js for the backend. Integrated MySQL for storing dynamic content.
- **Technologies Used:** React.js, Redux, Node.js, MySQL, Express, Ant Design

### Service Provider Application

- **Description:**
  - Developed a platform to connect customers to service providers with features like real-time tracking, booking systems, and user reviews.
- **Technologies Used:** React.js, Node.js, MongoDB, Redis, Axios, Firebase

### Instant Loan Application

- **Description:**
  - Created a loan application platform with React.js for the front-end and secure backend integration using Node.js. Implemented OAuth for user authentication and real-time loan status updates.
- **Technologies Used:** React.js, Node.js, MongoDB, OAuth, Redux, REST APIs, Firebase.

## Certifications

**MERN Stack Development | Certificate**

*December 2023*

**Yours truly,  
Giridhar**
