

Karthik Raman

Senior Mule Consultant

E-mail : ramankarthik97@gmail.com

Mobile : +91-8669966960

Profile:

5* Certified Mulesoft developer with a strong record of designing and implementing reliable integrations. Skilled in API design, data transformation, error handling and testing. Skilled problem solver with deep integration pattern knowledge. Collaborative and communicative team player focused on delivering efficient, scalable solutions.

Work Experience:

Digital Engineer Lead Engineer

NTT Data Services

October 23 - Present

- Participate in Design, Development and Support phases of Software Development Life Cycle
- Orchestrated efficient large-scale software developments, including testing feature and correcting code
- Integrate messaging systems with Mule
- Prepared detailed reports on updates to project specifications, progress, identified conflicts and track the fixing of any issue

Senior Software Engineer

Apisero Inc

September 20 - September 23

- Worked extensively in Finance domain and used DNA Fiserv Banking API to perform operations like Loan Generation, Account Creation, Member Add, Fund Transfer etc
- Developed RESTful and SOAP API in Mule based on SOA architecture
- Produce various high level, low level design documents
- Collaborate with product managers and scrum masters to translate business requirements into technical requirements as well as to develop clear specification for project plan
- Document and Design REST API using RAML specification and provided mocking services to application developers
- Deploy mule applications on various mule connectors, developing API, API Management and services on cloudhub and maintain MUnits tests that ensure code functions through all logical paths
- Create mule flows following API Led connectivity architecture, following C4E recommendations and best coding standards ,dataweave coding , message enrichment, orchestration that uses scatter-gather and various request-response patterns
- Integrate enterprise database with Salesforce, Log Migration to Datadog and Splunk, Bi-directional data sync, data migration, file format conversion, migration from one platform to mule and many more integrations implemented
- Environment / Applications / Connectors - Salesforce, Anypoint MQ, AWS SQS, PostMan, SOAP UI, Anypoint Studio, xml, json, dataweave, cloudhub, jira, Azure devops, Bitbucket, CircleCI, JMeter, SFTP, Database, GCP, SMB, Hackerearth, Jitterbit, Anypoint On-premise, Twilio, Marketo, Datadog, Invoke Static Java

Software Engineer Intern

Hitachi India Private Limited

July 19 - July 20

- Develop and present Web page to Clients in Django, ASP.Net, enhancing analytics in steel industry
- Implement POC for client in Python to enable digitalization in steel industry

Certifications:

- MuleSoft Certified Developer – Level 1 (Mule 4)
- MuleSoft Certified Developer – Level 2 (Mule 4)
- MuleSoft Certified Integration Associate
- MuleSoft Certified Integration Architect
- MuleSoft Certified Platform Architect
- Salesforce Certified Integration Associate

Educational Qualifications:

Ramdeobaba College of Engineering

MTech - CSE

August 18 - August 20

MVJ College of Engineering

BTech - CSE

July 14 - July 18

Skill Sets:

SOA Suite	Mule 4, Jitterbit, REST, SOAP
CI/CD	Bitbucket, CircleCI, Azuredevops
Databases	MySQL, SQL Server
Version Control	Git, Bitbucket
Web Technologies	XML, JSON, HTML, CSS, and Bootstrap
Other Tools	Postman, SOAP UI, JMeter
Languages	Dataweave, Python, Java (Basic)

Projects:

Anypoint MQ - GCP Logshipper

Role	Lead Developer
Platform	Mule 4 , GCP, Anypoint MQ
Description	<ul style="list-style-type: none">• Process the payload from Anypoint MQ• Mask PHI fields using dataweave• Send data to Google cloud platform topic

Recruitment Automation System

Role	Lead Developer
Platform	Mule 4 , Greenhouse, HackerEarth
Description	Automate the greenhouse dashboard and streamline the HR recruitment process Send Hackerearth test to eligible candidates and check whether candidate cleared the exam via Mule application. If candidate did not clear the exam or any interview round , send rejection mail

Onedrive - SMB Integration

Role	Lead Developer
Platform	Mule 4, Onedrive, SMB
Description	Configure a mule application as a webhook notification url at Onedrive . If any xlsx file is placed on Onedrive, mule application will be triggered and the file will be processed, DNA Fiserv Finance API will be invoked to fetch necessary data and upload success csv file in SMB. Failed records will be consolidated and notified as csv file via email

SFTP - Salesforce Integration

Role	Lead Developer
Platform	Mule 4, SFTP, Salesforce
Description	Read a csv file from SFTP and use Salesforce bulk api to upsert records in Salesforce. Check if job state was successful and on successful proceed with further operations based on retrieve successful result Salesforce API. Failed records will be retrieved using retrieve failure result api and the failed records will be notified to the user
