Objective

Dedicated and skilled Java Developer with 1.10+ years of experience in designing, developing, and implementing web-based applications. Seeking to leverage expertise in Java, Spring frameworks and RESTful APIs to contribute effectively to a dynamic organization while further enhancing technical and analytical skills.

Professional Summary

- Results-oriented professional with a strong track record in software development, encompassing Spring, Spring Boot, RESTful Web Services and Spring Data JPA.
- Experienced in complete Software Development Life Cycle (SDLC) phases, including analysis, design, development, and implementation of web-based applications.

Technical Skills

Languages:	Java, MySQL
Operating Systems:	Microsoft Windows, Linux (Basic)
JSE/JEE Technologies:	JDBC, Servlet
Servers:	Tomcat
Frameworks:	Spring, Spring Boot, Spring Data JPA
Distributed Technologies:	RESTful API
Tools:	Log4j, Maven
IDE:	Eclipse, Spring Tool Suite

Work Experience

Altruist Technology Private Limited
Panchkula, Haryana

October 2021 – August 2023

Project: Altruist Secure

Role: Team Member

Team Size: 2

Environment: Java, Spring (MVC, Boot), Spring Data JPA, RestApi, Tomcat, Log4j, Maven, SQL Developer, SVN, Eclipse

Project Description

- Altruist Secure product which helps smartphone mobile users to secure their device against Accidental damage and Liquid damage or Theft/Loss or Full Coverage

Roles and Responsibilities

- Spearheaded Agile-driven requirements gathering, analysis, design, and development for the Altruist Secure project.
- Developed JAVA classes using N-Tier Architecture and Database Connectivity.
- Implemented MVC patterns, including Component class development.
- Designed and implemented the Persistence layer using the Spring Data JPA framework.
- Created server controls utilizing Spring Controller classes.
- Actively engaged in bug fixing and issue resolution.

Project: HRMS (Attendance Portal)

Role: Team Member

Team size: 2

Project Description

- Hrms (Human Resource management System) System is advanced and proven software that manages time, attendance and employee leaves efficiently.

Roles and Responsibilities

- Contributed to the development of JAVA classes and Spring Boot components in a N-Tier architecture.
- Designed and developed RestAPI solutions to meet new requirements.
- Constructed Persistence layer using Spring Data JPA framework.
- Led Linux server build and deployment activities.
- Played a pivotal role in quality assurance by identifying and rectifying bugs and enhancing application stability.

Education

Bachelor of Technology (B. Tech) | M.M University, Mulana, Ambala | 2018

Polytechnic | Seth Jai Prakash Polytechnic, Damla, Haryana | 2014

10th Grade | Sivananda Praveen public school, Yamuna Nagar, Haryana | 2013

Declaration

I hereby declare that the above-given particulars are true to the best of my knowledge and belief.

Place: Haryana
