WORK EXPERIENCE

Freelancer Freelancing

08/2022 - Present

- **Optimized database systems** to enhance accuracy and accessibility, ensuring reliable and efficient data management.
- **Collaborated with clients** to refine web page designs using HTML5 and CSS3, delivering visually appealing and user-friendly interfaces.
- **Developed web applications** using Angular, Node.js, REST APIs, and JSON, providing dynamic and responsive solutions that meet client requirements while managing workflows and utilizing Adobe Photoshop for image preparation.

Java Developer CodSoft

08/2023 - 09/2023

- Successfully delivered three Java projects, demonstrating advanced coding skills and timely project completion.

Head of Publication Team CSI

08/2018 - 05/2022

- Recognized as a valuable CSI team member, earning a certificate for contributions prior to assuming a leadership role.
- Demonstrated commitment and proficiency, receiving recognition for contributions to collective goals.

PERSONAL PROJECTS

Cafe Management System (01/2025 - Present)

- Designing a web-based system for managing cafe operations using Angular Material for a responsive UI, Node.js with Express for backend APIs, and MySQL for data storage. Key features include real-time order tracking, menu and inventory management, and user authentication to streamline operations and enhance efficiency.

Employee Management Innovator (04/2023 - 03/2024)

- Architected an Employee Management System using Java, Spring Boot, and MySQL.
- Developed an interactive attendance tracking dashboard to enhance user experience.

EDUCATION

Bachelor Of Computer Engineering (BE) Viva Institute OF Technology

06/2018 - 08/2022

- 7.75 CGPA

SKILLS

Angular

NodeJS

PHP

Rest API

JSON

SpringFramework

GIT

GitHub

SpringBoot

Communication

Project Management

Java

JavaScript

MySQL
