EXPERIENCE

IT CONSULTANT (MIDDLEWARE)

October 2016 – Present

Vision Technology Consulting Sdn Bhd

Service-Oriented Architecture (Oracle SOA)

Project Involvement: 2017 – Current

- SOA (Oracle Service Bus 11G) consultant for Tupperware Asia Pacific GMC implementation across 7 countries/regions (Malaysia, Indonesia, Vietnam, Korea, Japan, China, Philippines, India, and currently Australia).
- Oversee more than 40 global interfaces (common global interfacing to JD Edwards ERP) and over 70 regional interfaces (interfacing with each region's front-end systems).
- Developed integration systems for India (onsite at Dehradun), Japan (onsite at Tokyo), and Australia (onsite at Melbourne).
- Supported and developed integration (OSB 11G and ODI 12G) for Telekom Malaysia's SMS System.

Scope of Work and Skills:

- Developing using XML, REST, SOAP, JSON, XQUERY, WSDL, XTransform, Oracle Database 11G, SQL Server, Java Function, Shell Script, JMS (Topic) service, and Batch Script.
- Performed integration between B2B, Disaster Recovery, Server Upgrade, Windows Scheduler, SMTP, FTP, and SFTP.
- Prepared project quotations based on man-day costs and delivered them to management for project contracts.
- Led the production support team, troubleshooting and resolving production issues for 9 countries.
- Involved in end-to-end development and performed SIT, UAT, PT, and production activities.
- Handled Oracle Service Requests (SR), Oracle WebLogic patching, SSL/CA certificate import to Java Keystore, and web service implementations.
- Conducted server migration and installations from Windows Server 2008 to Windows Server 2018, including software installation.

Oracle Data Integrator (ODI ETL)

Project Involvement: 2019 – 2020

- Worked on Oracle Data Integrator for CAGAMAS Berhad Mortgage Corporation Malaysia Project.
- Facilitated integration with product systems such as SKIM Rumah Pertama, Purchase Without Recourse (PWOR), and Purchase With Recourse (PWR).
- Integrated the LAS front-end system with OBIEE (Oracle Business Intelligence) for analytics and reporting purposes.

Scope of Work and Skills:

- Development using Oracle SQL, Oracle Stored Procedures, Cursors, SQL Triggers, and SQL Functions.
- Designed Star Schema Data Dimensions and worked with Oracle Business Intelligence (OBIEE).

LANGUAGE

Speaking:

Malay	<div><div></div></div>
English	<div><div></div></div>

Writing:

Malay	<div><div></div></div>
English	<div><div></div></div>

- Collaborated with the development team to create integration modules based on client requirements.
- Upgraded software, including ODI version updates.
- Managed client requirements and business changes via Mantis.

WSO2 Enterprise Integrator (WSO2)

Project Involvement: 2020 – Current

- Implemented WSO2 open-source technology for Telekom Malaysia.
- Supported the migration from Oracle Integration products to WSO2 to ensure compatibility with client and vendor systems.
- Integrated systems such as CBS (Customer Billing System), CRM (Customer Relationship Management), Intelligent Customer Engagement, and Siebel CRM applications.

Scope of Work and Skills:

- Deployed Docker Kubernetes images and RabbitMQ.
- Utilized XML, JSON, REST, WSDL, XQUERY, and Amazon AWS S3 integration.
- Imported SSL certificates.
- Developed integration systems for CRM with TM CRM systems such as SPORA, SPICE, CASE, BEBAS, Unifi Portal, and Unifi Apps.
- Created Interface Agreement (IFA) documentation and presented integration architecture and specifications to clients.
- Conducted training sessions for new joiners.

Service-Oriented Architecture (Oracle SOA) and SSO (Oracle Single Sign-On)

Project Involvement: 2023 – Current

- Worked on SOA in BPEL and Oracle Service Bus 12c for Dewan Bandaraya Kuala Lumpur.
- Integrated internal systems such as payroll, human resources, and attendance systems.

Scope of Work and Skills:

- Built integration for batch operations using BPEL for data reconciliation.
- Supported SSO issues related to access to other systems.
- Presented the current integration framework and security specifications to clients.
- Developed integrations with internal systems using Oracle Service Bus 12c.
