

# NAVEEN SUDHA

MULESOFT DEVELOPER

**Address:** Hyderabad

**Email:** naveensudha190@gmail.com

**Phone:** +91 - 9603144593

**LinkedIn:** <http://www.linkedin.com/in/naveen>

## Summary:

Experienced MuleSoft Developer, skilled in optimizing MuleSoft interoperability, integrating IoT devices with Mule ESB, and streamlining integration workflows. Achieved a 25% reduction in data processing time and a 15% improvement in data accuracy. Designed and developed RESTful web services and conducted comprehensive testing using MUnit and Postman. MuleSoft Certified Developer (MCD) Level-1 with expertise in Java, C/C++, HTML, SQL, RESTful web services, and JSON, bringing technical proficiency and troubleshooting skills to any project.

## Certifications:

- MuleSoft Certified Developer (MCD) Level-1
- Completed the online course "Python for Everybody"
- Earned certification in "HTML5" from Coursera

## Skills:

- MuleSoft (Any point Studio, Any point Platform)
- Java, C/C++, HTML, SQL
- RESTful Web Services, JSON

## Secondary Skills and Tools:

- Kafka
- IBM MQ, MFT
- ELK, Dynatrace
- Windows, Linux
- JIRA, Confluence, GitHub, GIT
- Maven
- MUnit, Postman

## Work Experience:

**MuleSoft Developer, Tata Consultancy Services Ltd – Hyderabad, Telangana, India**

**July 2021 – Present**

- Optimized MuleSoft Interoperability roadmap reducing data processing interval by 25%.
- Implemented efficient Data Weave transformations, improving data accuracy by 15%.
- Integrated IoT devices with Mule ESB, achieving real-time traffic monitoring and control.
- Designed and developed RESTful web services for seamless data exchange.
- Collaborated cross-functionally to deliver projects on time, ensuring client satisfaction.
- Utilized JIRA, Confluence, and GitHub for streamlined project management and collaboration.
- with clients and internal teams to ensure seamless integration.

## **Projects:**

### **NSW Electricity WAM Transformation**

**(Client: Trans Grid, Australia)**

- Led development of integration workflows, diminishing Data processing interval by 30%.
- Enacted RESTful web services, enhancing data accuracy and system interoperability.
- Collaborated with clients and internal teams to ensure seamless integration
- Conducted complete testing using MUnit and Postman, ensuring data integrity and system functionality.
- Utilized Maven for efficient version control and deployment.

### **American Pharma Company**

**(Client: McKesson, US)**

- McKesson Corporation is an American company distributing pharmaceuticals and providing health information technology, medical supplies, and care management tools.
- In US Dscsa program was established to help develop electronic capabilities for identifying and tracing prescription drugs. The program involved a variety of stakeholders, including large and small entities from different industries.
- Developed the integrations between multiple systems to achieve the DSCSA it includes data of type Json, xml, file based.
- Utilized GitHub for efficient version control and deployment.

## **Education:**

- Completed Bachelors in Computer Science and Engineering from B.V.Raju Institute of Technology, Narsapur in June 2021 with a strong GPA of 8.25/10.

## **Achievements:**

- Won Merit for "Coding Challenge" at Promethean 2K19, BVRTN.
- Attended "Internet of Things" workshop at BVRIT, 2018.
- Received client and manager accolades for meeting project deadlines with 100% CSI.
- Recognized as a top-performing team member and valuable resource.
