Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Technologies & Tools: AWS, EC2, MySQL, S3, Lambda, Kubernetes, Docker, Spring, HTML, CSS, Spring Security, thymleaf, Bootstrap, Spring boot, GitHub, Git, Agile, Linux command

Work Experience

Logique Technologies, Nashik

Dec 2021 – May 2024

Software Engineer

Shoppersstop ECommerce Web Application

- Developed secure **user authentication model** and **PayPAL Payment Integration** for our e-commerce client.
- Performed **Rest API** integration with PayPal utilizing **Spring Boot** for rapid development, with microservices architecture, and hosted on **AWS**.
- Worked in **Agile** team to effectively contribute to end-to-end integration like exploring & finalizing PayPal **Standard Checkout**, integrating **PayPal Rest APIs**, building end-to-end error handling system, securing the application using **OAuth2.0** & using **Spring Boot Security**.
- . Implemented session-based authentication and designed a user-friendly login and registration system with **HTML, CSS, and Bootstrap**.

Responsibilities:

- Worked on day-to-day design & development of **Payment Integration** and **User Authentication** using Java **Spring Boot & Microservices**.
- Did PayPal integration and User Authentication document analysis, and finalized end-to-end integration approach with the team.
- Integrated PayPal **Rest APIs** for Order management for standard checkout flow: createOrder, captureOrder, getting status.
- Strong contributor in designing & developing end-to-end secure User Authentication Model. This Model ensures 100% user security .
- Focused on building a modular system, by effectively utilizing **OOPs** & design standards.
- Worked with **MySQL** using Spring JDBC.
- Hands-on experience with **AWS** services like EC2, RDS, AWS Secrets Manager,S3,IAM,Elastic Beanstalk

Education

Parul University

MBA in Information Technology

Jul 2024 - Present

Savitribai Phule Pune University

B.E. in Electronics and Telecommunication Engineering

Jun 2017 - Nov 2020

CGPA: 7.20/10

Project Work

• Deploy Mobein App on Kubernetes using AWS

Deploy Mobein App on **Kubernetes** using AWS.Build Kubernetes cluster on AWS from scratch with minukube. Setup & managed docker container for Django & react Application into Kubernetes cluster. Managed Deployment ,Replication ,Auto-healing ,Auto-scaling for Kubernetes cluster. Managed network & services with host IP allocation through proxy on AWS EC2 & Route53.

• Cloud DevOps Project for Automate the changes web server made by developer using Jenkins , Ansible, Web server, AWS.

This project is use whenever developer make changes in code and commit those code then on web server automatically updated (Globally). In this project we use Jenkins, ansible , web server , AWS.

Awards and Certificates

- **Cloud DevOps Course (Upgrad)**
- **Capgemini Certified Java Full Stack Developer**
- **Associate Software Engineer Internship at Accenture**
