

Niraj Amle

INTEGRATION LEAD

Pune | +91-9819387913 | nirajamle@gmail.com

Objective

Results-driven Integration Lead with over 10 years of experience in designing and implementing advanced integration solutions using MuleSoft. Proficient in Mule ESB, Anypoint Studio, RAML, CloudHub and Runtime Fabric, with a strong background in architectural design and system integration. Skilled in developing and managing APIs with a focus on API-led connectivity, Security, and comprehensive error handling. Ability to deliver high-quality solutions under tight deadlines while enhancing project efficiency through agile methodologies and effective stakeholder collaboration.

Experience

ETech IT Solutions | Integration Lead

Aug 2023 - Present

- Collaborate with stakeholders to gather requirements and develop detailed integration specifications and implementations using MuleSoft.
- Design and architect solutions that integrate with external systems, leveraging MuleSoft's Anypoint Platform for end-to-end integration.
- Develop and maintain Mule APIs using Anypoint Studio and RAML, implementing robust API-led connectivity to support business needs.
- Utilize a range of connectors, including HTTP, DB, SFTP, FILE, SMTP, MQ, Workday, Snowflake, JSON Logger, Crypto, Object Store, and SMB, to enable seamless data integration communication.
- Configure and manage various MuleSoft policies (e.g., ClientID Enforcement, Message Logging, Rate Limiting, IP Whitelisting, JWT, OAuth 2.0) to ensure secure and efficient API management.
- Build error handling framework, global error handling mechanisms, to handle error scenarios and utilize across implementations.
- Worked on different design patterns, catering to clients' requirements.

IBM India Pvt Ltd | Senior Systems Analyst

Aug 2021 – Aug 2023

- Developed RESTful web services in MuleESB based on SOA Architecture.
- Leveraged MuleSoft connectors HTTP, DB, SFTP, FILE, SMTP, MQ, JSON Logger, Crypto, and Object Store to facilitate diverse integration scenarios and data transformation needs.
- Utilized DataWeave for data transformation and integration, ensuring high performance and data accuracy across different systems. Implemented robust API security and governance practices, including OAuth 2.0 and TLS/SSL, to safeguard API interactions and data exchanges.
- Developed and executed unit tests and MUnit test cases to validate API functionality and ensure quality throughout the development lifecycle.
- Led API design and development efforts to create and publish APIs, integrating with various backend systems and external services.

_VOIS | Deputy Manager

Jan 2018 – Aug 2021

- Worked as a Mulesoft developer and was involved in developing APIs with various interfaces.
- Create, manage, and enhance APIs using the Anypoint platform.
- Good exposure to API-led connectivity.

- Worked on POC of using Mule ESB for checking feasibility of migration from BW5.x to Mule.
- Worked on MuleSoft Anypoint API platform, designing and implementing Mule API using Studio and RAML as part of Migration POC.
- Worked on Mashery Local and Cloud POC for migration for existing API from API exchange Gateway
- Implementation experience in Mule ESB over Anypoint Studio, Anypoint Cloud-Hub, API Gateway.
- Involved in unit testing and writing the MUnit Test cases for the flows.

TIBCO Software India Pvt. Ltd | Associate Consultant

Oct 2015 – Dec 2017

- Worked on functionalities involving developing back end rest services.
- Interface development using Tibco BusinessWorks (5.12), in accordance with the Design, code Deployment to Dev, SIT and UAT Environment and unit testing
- Configuration updates required as part of Code updates.
- Deploying the application using TIBCO Administrator and scripted deployment.
- Creation of Certificates and LB Configuration for proper routing of network traffic.

CMC Ltd | Systems Engineer

Jul 2014 – Sep 2015

- Involved in Technical Maintenance of the Application
- Understanding the customer requirements and meeting the customer expectations within the deadline
- Guiding the team technically and functionally in Maintenance and support for problem solving
- Involved in writing complex Database Queries (MySQL, ORACLE)
- Deployment of TIBCO interfaces.

Education

Mumbai University, MCA

2014

Computer Application

Mumbai University, BSc

2011

Computer Science

Skills & abilities

- | | |
|----------------------|-------------------------------------|
| • Mule ESB | • Gitlab, Jenkins, Azure Devops |
| • Anypoint Platform | • API-Led Connectivity Architecture |
| • TIBCO | • SOA |
| • CI/CD | • TLS/SSL |
| • Technical Analysis | • O-Auth2.0, JWT , Security |

Certifications

- Mulesoft Certified Developer L1
- Mulesoft Certified Integration Associate
- Mulesoft Certified Platform Architect
- Solace certified solutions consultant
- AWS Foundation Certified
- Azure Fundamentals Certified
