Bachelor of Technology

S R K R Engineering College (Andhra University Of Engineering)

07/2013 - 03/2017

Course

Computer Science and Engineering

8.38

WORK EXPERIENCE

Application Development Team Lead

Accenture Services Private Limited

12/2021 - Present

Working as MuleSoft developer and Architect

Hyderabad, India

Projects

- Currently working on syncing data between multiple Salesforce ORG's for different objects, like Opportunities, Accounts and Hotels.
- Worked on integrating Salesforce with backend Cvent and IMT systems to analyse the hotel's availability and update the appropriate response into Salesforce.
- Developed an API, which will dynamically provide the availability of the Flights (Hawk and Flamingo) based on the input provided.
- Developed multiple automation and innovation ideas and currently working on a white paper related to API Monetisation.

WORK EXPERIENCE

Application Development Senior Analyst Accenture Services Private Limited

10/2020 - 11/2021

Worked as a Mulesoft developer, integrating external systems like ServiceNow, Salesforce and MDM

Hyderabad, India

Projects

- Developed APIs which deal with the integration of ServiceNow and Salesforce to have sync between the cases that are being created.
- Developed an API to pull a huge amount of data from MDM and updated the data to salesforce objects, generated the excel sheet to have the list of accounts retrieved and updated and stored in SFTP location. Which includes CI/CD tools like GitLab.
- Developed an automation API, which was based on the excel sheet provided it will retrieve the corresponding data from MDM and update the data into the respective record.
- Developed an API (with UI) related to Case Management, to get the response for the end-user once the case got resolved and updated comments received into the corresponding object.

Assistant Systems Engineer Tata Consultancy Services

08/2017 - 05/2020

Hyderabad, India

Projects

- Developed Chat-BOT (EIVA and TimeSheet) to TCS internally using AZURE(LUIS) and Node.js. Developed a java reusable component to generate EXCEL sheets for the properties files that are being used in MuleSoft API.
- Developed and Managed different MuleSoft APIs using MuleSoft 3.8+ and 4. x for Farmers Insurance Group which has its parent company as Zurich Insurance Group which were deployed in both On-Prem and Cloud.
- I have implemented APIs that deal with 'Document Management' in Mule 3. I have used different connectors like WMQ, Database, FTP, SFTP, HTTP/HTTPS, and Salesforce. I have a good experience in data weaving concepts and had solved many complex problems with ease. Integrated **DocuSign** with the **Farmers Insurance** documents management system.
- In Mule 4, I have implemented APIs that deal with 'Data Storing' and 'Data Accessing', handling different kinds of critical errors and transformations. Worked on Mule 3 to Mule 4 conversion for different APIs. I have good knowledge of CI/CD tools like Jenkins and GIT.
- Developed an API, to read all the MuleSoft projects and verify if all the required environment properties are present or not and generate an excel sheet with the available properties.

CERTIFICATES

MuleSoft Certified Developer - Level 1 (Mule 4) (07/2021 - 07/2023)
