## SKILLS

- Rest API • Mule 4 • JSON
- DataWeave • AWS
- AnyPoint Developer • RAML
- API Development • Azure
- Jenkins • SOAP • EDI
- API Designer • SOA
- Salesforce • Mule ESB
- Partner Manage • Java
- SQL • MySQL • Spring Boot
- Python • C/C++ • Django
- CICD Pipeline • MuleSoft
- Mule Connectors • Munit
- Python • Data Structure
- Algorithm • Git and GitHub
- Agile • GraphQL • HTML
- API Testing • CloudHub
- Integration • Debug
- Troubleshooting • CSS
- API Management • REACT
- AnyPoint Studio • JAVASCRIPT

## CERTIFICATIONS

- MCD Level 1 Certified
- MCD Level 2 Certified
- MIA Certified

## PROGRAMMING LANGUAGES

- Java • C/C++ • Python

## SUMMARY

A proactive MuleSoft Developer with a zeal to learn something new.

## WORK EXPERIENCE

### Apisero, part of NTT DATA | SENIOR SOFTWARE ENGINEER (MULESOFT DEVELOPER)

Jul 2021 — Present | Bangaluru, IN

- Specialize in Mule Integrations, API Management and APIs Development.
- Experience in designing the API led connectivity architecture for Rest Based and SOAP API and also have experiences in designing CICD Pipeline with Amazon Web Services (AWS) and Microsoft Azure.
- Hands on experiences in developing Production ready APIs on Anypoint Studio and make the asset available in Anypoint exchange and deployed to CloudHub.
- Knowledge of various integration related to Business-to-Business (B2B), platform and EDI Trading Partner Integration development.
- Specialize in designing and developing RESTful APIs using RAML specifications.

### Virtusa | SDE INTERN | JAVA AND AWS SERVICES

Jul 2021 - Aug 2021 | Chennai, IN

- Contributed to the development of a web application for School Parent Communication, similar to Reddit.
- Built with Java 8, Spring Boot, JPA with Hibernate, and Spring Security, and used Angular, HTML5, and Bootstrap for the frontend.

## PROJECTS

### DrChrono and Salesforce Integration | MULESOFT, ANYPOINT, PLATFORM, SALESFORCE CONNECTOR, DRCHRONO API

Jan 2023 — Jul 2023

- Skillfully orchestrated a seamless integration between the Drchrono Electronic Health Records (EHR) system and Salesforce, facilitating efficient data exchange and enhancing operational synergy.
- Engineered a robust API solution enabling bidirectional data synchronization. This solution empowers the user to effortlessly add patients to the Drchrono practice system by querying pertinent information from Salesforce, ensuring data consistency across platforms.
- Designed a robust bidirectional API for seamless patient data synchronization between Drchrono and Salesforce, ensuring data consistency across both platforms.

### Oracle PeopleSoft and Salesforce Integration | MULESOFT, ANYPOINT PLATFORM, ANYPOINT STUDIO, ORACLE PEOPLESOFT, SALESFORCE

Jan 2022 — Present

- Designed and developed REST based API through Architectural high-level design covering all the three layers of API Led connectivity.
- Worked on creating an event-based system which syncs up the data between Oracle PeopleSoft and CRM Dashboard Salesforce.
- Here in this project everything is linked via OAuth 2.0 so wonderfully implemented as well as documented OAuth 2.0 with mule best practices.

## AWARDS & ACHIEVEMENTS

- 2023 MVP Award @ NTT DATA Company.
- 2023 Raving Reviews Client Award @ Apisero Inc.
- 2023 Ace Award from Manager @ Apisero Inc.
- 2022 Raving Review Client Award @ Apisero Inc.
- 2021 Codelite Hackathon Winner Organized by Virtusa
