## CAREER OBJECTIVE

---

Highly motivated Application Developer with 1+ years of experience in Java development. Adept at coding, reviewing, and implementing design plans. Passionate about software development, industry trends, and technology advancements. Seeking a challenging role to contribute technical expertise, collaborate in Agile environments, and drive innovation in software solutions.

## PROFESSIONAL SUMMARY

---

- Experienced in coding, reviewing, and implementing Java-based software solutions for business applications.
- Strong understanding of Agile methodologies, SDLC processes, and software development best practices.
- Proficient in Java, JavaScript, C++, PHP, SQL, HTML, and various web frameworks.
- Expertise in user interface development and web-based applications with responsive designs.
- Skilled in debugging, optimizing, and analyzing code segments for enhanced performance.
- Hands-on experience with documentation, reporting, and maintaining technical records.
- Collaborative team player with excellent communication and time management skills.
- Enthusiastic about staying up-to-date with industry trends and emerging technologies.

## SKILLS

---

**Programming Languages:** Java, JavaScript, HTML, CSS, SQL

**Testing:** Manual Testing, Unit Testing, Test Plan, Test Case Design and Execution, Defect Life Cycle

**Tools and Frameworks:** Selenium, Spring Boot, JIRA, Bugzilla, Git, Confluence, Eclipse, MS Office Suit

**Methodologies:** Agile, SDLC and STLC, Waterfall, Code Reviews, User Stories, Test-driven development

**Documentation:** Requirement Analysis, User Manual, Technical Documentation, UML Diagrams

**Collaboration and Teamwork:** Sprint Planning, Daily Stand-ups, Attention to Detail, Adaptability

## FREELANCING WORK

---

**Document Specialist**

Feb 2023 - Octo 2024

Freelance *Remote*

- Created, edited, and organized technical documents, ensuring clarity, accuracy, and user-friendliness for end-users.
- Developed and formatted online help guides, installation manuals, and release notes for software applications.
- Collaborated with clients to understand needs and deliver structured, user-centered content.
- Ensured compliance with industry standards and best practices for technical documentation.

## WORK EXPERIENCE

---

**Software Engineer Trainee**

Sept 2021 - June 2023

Trianz *Hyderabad, Telangana*

- Developed, tested, and maintained Java applications ensuring high performance and scalability.
- Reviewed and optimized code segments to improve efficiency and maintainability.
- Created design plans and implemented UI components based on project requirements.
- Worked closely with cross-functional teams to meet business objectives and deliver solutions.
- Engaged in Agile methodologies, including sprint planning, retrospectives, and stand-up meetings.

- Maintained software documentation and provided technical support for system enhancements.

## PROJECTS

---

### RSI Supplize

Nov 2022 - June 2023

Domain: e-Commerce

- Developed and maintained a restaurant management system using Java, SQL, and web frameworks.
- Implemented secure user authentication, order management, and payment processing functionalities.
- Designed and developed UI components ensuring seamless user experience across devices.
- Integrated RESTful APIs to fetch real-time data for menu and order tracking.
- Conducted unit testing and debugging to ensure application stability and performance.
- Collaborated with stakeholders to gather requirements and deliver project milestones.
- Documented technical processes, configurations, and troubleshooting guides for future maintenance.

### Brinks

Feb 2022 - Octo 2022

Domain: Logistics, Security

- Developed enterprise solutions for Brinks company project, focusing on security and transaction management.
- Implemented Java-based backend services ensuring high security and efficiency in transactions.
- Designed UI and web components, integrating user-friendly dashboards for monitoring operations.
- Integrated APIs and database interactions to manage financial transactions and security checks.
- Conducted extensive testing to ensure compliance with industry security standards.
- Engaged in Agile workflows, contributing to sprint planning and code reviews.
- Provided technical documentation and support for project deployment and maintenance.

### Internal Recruitment

Sept 2021 - Jan 2022

Domain: Recruitment and Internal Hiring

- Conduct requirement gathering by understanding job descriptions, team needs, and candidate expectations thoroughly.
- Perform resume screening to shortlist potential candidates based on qualifications, skills, and experience criteria.
- Manage documentation by maintaining candidate records, interview feedback, and hiring process-related files efficiently.
- Generate reports on recruitment metrics, hiring status, and candidate progress for management review.
- Collaborate with hiring managers and teams to ensure a smooth and efficient recruitment process.

## EDUCATION

---

**Computer Engineering**, Jaihind College of Engineering, Pune, 2021

CGPA: 8.54

**Diploma in Computer Engineering**, Jaihind Polytechnic, kuran, 2018

Percentage: 79.38

**SSC**, New English School Shirol BK, 2015

Percentage: 81.43

## CERTIFICATION

---

- Power BI (In progress)
- MySQL Basic, Great Learning
- Java Development, Great Learning
- Certified Agile Tester (CAT), Techcanvass

## DECLARATION

---

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
