

# GUNDLA AKHIL REDDY

+91-9618304724 | [akhilreddygundla@gmail.com](mailto:akhilreddygundla@gmail.com) | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

## EDUCATION

### CMR TECHNICAL CAMPUS

Bachelor of technology in Computer Science and Engineering (AI& ML)

CGPA - 8.33

2020 – present

### SRI CHAITANYA JUNIOR KALASALA

Intermediate(MPC)

Percentage – 88.6

2018 – 2020

## EXPERIENCE

### AI INTERN

June 2021 – Sep 2021

#### Orbit Shifters

- Worked with a team of 5+ highly experienced people.
- Built 1 project using computer vision.
- Learned how to be an asset to the team and the best practices to develop any software.

## PROJECTS

### SortIt : |HTML, CSS, JavaScript

- Created a sorting visualizer that helps to visualize how sorting algorithms are implemented behind the scenes.
- This project includes algorithms like Bubble Sort, Merge Sort, Selection Sort, Insertion Sort and Quicksort.
- This project is highly responsive to ensure good user experience across various devices and screen sizes.

**Live Website** : <https://akhilreddygundla.github.io/sortingVisualizer/>

### WeatherCrafter : | HTML, CSS, JavaScript

- This project offers detailed insights into both the current weather conditions and the seven-day weather forecast.
- It leverages the VisualCrossing Weather API, a reputable source for accurate weather data.
- The project is designed to be responsive, ensuring a seamless experience across various devices and screen sizes, making it accessible to users on computers, tablets, and smartphones.

**Live Website** : <https://weather-app-psi-flame-82.vercel.app/>

## ACHIEVEMENTS

- I have developed a [Sorting Visualizer](#) that has attracted more than 100 students to visit the Website to learn and visually understand sorting algorithms.
- I have successfully solved over 700 problems and participated in more than 100 contests on platforms such as LeetCode, CodeChef, Codeforces, HackerRank, and Vjudge.
- Secure GLOBAL RANK 135 in September Long Challenge(Code-Chef)

## TECHNICAL SKILLS

- Programming Languages: C/C++, Java(Oops), Python.
- FrontEnd Technologies: HTML, CSS, JavaScript
- Developer Tools : Git, Visual Studio.
- Core Subjects : Object oriented programming, Computer Networks, Operating System and Data Base Management System

## INTERESTS

- Problem solving
- Web Development
- Blog Writing
- DevOps
- Open Source contribution
