

## BRIEF SUMMARY

- Dedicated and passionate Computer Science Engineering student with a strong interest in programming and software development.
- Skilled in Flutter and UI/UX Designing.
- Competitive coder at Codechef and Leetcode.
- Learn to design and create stuffs.
- Quick learner, team player, and thrive in dynamic environments.
- Ready to make a positive impact in the world of technology and contribute my skills to innovative endeavors.
- Eager to embrace new challenges, collaborate with passionate teams, and continue my journey of growth as a dynamic and versatile engineer.

## EDUCATION

- |                                  |                |           |
|----------------------------------|----------------|-----------|
| B.E/B.Tech CSE Panjab University | 2020 - Present | 8.49 CGPA |
|----------------------------------|----------------|-----------|

## KEY SKILLS/EXPERTISE

- |                 |          |            |                                |                |
|-----------------|----------|------------|--------------------------------|----------------|
| C               | Dart     | HTML       | Mobile Application Development | Android Studio |
| C++             | Flutter  | CSS        | Front-End Web Development      | Figma          |
| Java            | Firebase | Javascript |                                | Photoshop      |
| Problem Solving | Hive     | SQL        |                                | Premiere Pro   |

## PROJECTS

- Trawell** [link](#) HTML , CSS , JS
  - Trawell is a website that allows users to explore different tourist places in India. It provides information about famous tourist destinations, including their names, locations, descriptions, images, ratings, and the best time to visit each place.
  - This project was build as a group project for FUTURE READY TALENT program by Microsoft.
  - The front-end has been created using html , css , js and for back-end Vue.js and python has been used.
  - We needed to use any 2-3 Azure services in this provided by microsoft and so we used Azure App Service, Azure Blob Storage and Azure cosmos DB.
- Twiffy** [link](#) Dart , Flutter
  - Developed an engaging mobile game "Twiffy" using the Flutter framework and incorporating fundamental mathematical concepts.
  - Inspired by the classic Flappy Bird, the game features intuitive controls and captivating gameplay mechanics.
  - Leveraged Flutter's UI capabilities to create a visually appealing time-pass game.
- Todoey** [link](#) Dart , Flutter , hive
  - Designed and developed a feature-rich Todo application using the Flutter framework and integrated Hive database for seamless data storage and retrieval.
  - Created a user-friendly interface with Flutter widgets, ensuring an intuitive and visually appealing user experience.
  - Developed features such as task creation, editing, marking as complete, and deletion, providing users with comprehensive task management capabilities.

## RESPONSIBILITY

- |                                  |              |
|----------------------------------|--------------|
| Co-Technical Lead                | 2023-Present |
| Platform Tech Solutions          |              |
| Media and Outreach Lead          | 2021-Present |
| Codechef PUSSGRC College Chapter |              |

## INTERNSHIPS

- Flutter & UI Developer**  
Company: Freshnic Duration: May 2023 - June 2023  
Skills: Firebase · Cloud Firestore · Dart · Flutter

## CERTIFICATIONS

- Hacker Rank Skill Certification**  
Key Skills: · Problem Solving · C++ · DSA
- Microsoft Future Ready Talent Virtual Certificate**  
Key Skills: · HTML · CSS · JavaScript

## LANGUAGE

- English
- Hindi
