PROFESSIONAL EXPERIENCE (intern)

- Convivial Tech Hub,
Bangalore

I worked as a backend developer with the company ,we worked on a live project i.e., trucking CRM solution , in which we had made a website which helps to maintain the administrator- customer relationship and to maintain all the records of the employees and the workings in the company . I learned many skills with them like working with AWS Cloud ,java script and NodeJs etc

TECHNICAL SKILLS

- **Languages** (C, C++, Java),**Database** (MySQL) ,**Web technologies**(HTML,CSS,Bootstrap,Tailwind,JavaScript, jquery,Node.js,React.js) **Tools** (Eclipse, Oracle, VS Code) **DevOps** (Jenkins,Docker).

PROJECTS

- **Emojify** : It is a web-based ML project using facial recognition and CNN technologies it is used to convert the facial expressions and emotions into an emoji.
- **Chat Application** : It is a web-based project using PHP ,MY SQL and JavaScript technologies ,This app is used to chat with anyone across the globe we can sigIn and chat with the person we want and then can signOut.
- **E-Commerce Website** : It is an online shopping store from where we can view or buy products online ,technologies used in making are HTML , CSS , Bootstrap and JavaScript.
- **Super Market Billing Calculation System** : It is a simple and basic project using C programming language which helps to do online shopping and helps the admin to calculate and print out the bill of the costumer easily.
