

## Personal Information

- Name: **Abhishek Kantharia**
- Email: [abhishek.kantharia@gmail.com](mailto:abhishek.kantharia@gmail.com)
- Phone: **+918411950650**

## Summary

***Motivated and detail-oriented Application Developer with 2 years of experience in software development. Proficient in coding, reviewing code work for accuracy and functionality, and creating and implementing design plans. Strong knowledge of Javascript, C++, PHP, and SQL, with a solid understanding of user interfaces and web frameworks. Excellent communication and time management skills, with a passion for staying up-to-date with industry trends and technology developments.***

## Skills

- **Computer Vision**
- **Machine Learning Algorithms**
- **Linear Algebra, Optimization, Probability, Statistics**
- **Data Science Methodology**
- **Deep Learning Frameworks: TensorFlow, Keras, PyTorch**
- **Python Web Frameworks: Django, Flask, FastAPI**
- **Object Detection, Recognition, Semantic Segmentation**
- **Feature Engineering and Data Analysis**
- **Model Evaluation and Performance Tuning**
- **Algorithm Development and Prototyping**

## Work Experience

**Programmer | Cognizant | Pune, India | July 2020 – April 2022**

- ***Performed coding assignments to develop and enhance software applications.***
- ***Reviewed code work for accuracy, functionality, and adherence to best practices.***
- ***Created and implemented design plans to guide software development projects.***
- ***Analyzed code segments regularly to identify and resolve issues.***
- ***Delegated tasks to team members and ensured timely completion of assignments.***
- ***Kept up-to-date with industry trends and technology developments to inform software development practices.***

**Programmer | OnDirect | Pune, India | April 2024 – August 2024**

- ***Assisted in performing coding assignments and developing software solutions.***
- ***Collaborated with senior developers to review and refine code work for accuracy and functionality.***
- ***Participated in creating design plans and implementing them in software projects.***
- ***Conducted regular code analysis to ensure high-quality and reliable software.***

- *Stayed informed about the latest industry trends and technologies to enhance development skills.*

## Projects

- **Web Application Development**
  - *Developed a web application using JavaScript, HTML, and SQL.*
  - *Collaborated with team members to design and implement user interfaces.*
  - *Conducted code reviews and testing to ensure functionality and performance.*
- **E-commerce Platform Enhancement**
  - *Enhanced an existing e-commerce platform by implementing new features using C++ and PHP.*
  - *Analyzed and optimized code segments to improve system performance.*
  - *Worked closely with senior developers to ensure high-quality code and adherence to best practices.*

## Education

- *Bachelor of Science in Computer Science | Savitribai Phule Pune University, Pune, India | July 2016 – December 2019*
- *Master of Science in Data Science and Big Data Analytics | MIT World Peace University, Pune, India | August 2020 – May 2022*
