## Summery

---

Proactive and adaptable application developer with strong communication and time management skills with 2 years of experience at Fujitsu. Detail-oriented software architect seeking to leverage full stack coding proficiencies and grow as a professional programmer. Experienced in developing and optimizing web applications using Oracle Apex and hands on experience on Oracle Apps. Passionate about building scalable and user-friendly software solutions while continuously enhancing technical expertise.

## Experience

---

### Technical Consultant

*Fujitsu India Pvt.Ltd.*

*Pune, India*

*Mar 2024 – Present*

- Developed a strong foundation in translating business needs into technical specifications, ensuring alignment between functional and technical teams.
- Work with Orbit Analytics and Oracle Discoverer to structure data and generate reports that support business decision-making.
- Collaborate with mentors and stakeholders to refine system workflows, gather functional requirements, and enhance reporting capabilities.

### Application Developer

*Coreflex Solutions*

*Pune, India*

*Sept 2022 – Jan 2024*

- Joined Coreflex as a Trainee Application Developer, building a strong foundation in translating business needs into technical specifications.
- Gained hands-on experience in Oracle Apex development, learned to build and maintain web applications using HTML, CSS, and JavaScript.
- Learned to break down complex processes into manageable tasks, improving development efficiency and documentation clarity.

## Education

---

### PES Modern College of Engineering Pune

*BE (E&TC)*

*Jun 2022*

- **CGPA:** 7.2
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems.

## Projects

---

### Howmet Aerospace

*Jul 2024 – Present*

- Designed and customized 15+ Orbit Analytics reports for the Howmet Engine project, improving data visibility for business teams and reducing manual reporting time by 30%.
- Led requirement gathering sessions with stakeholders in Howmet Engine to define reporting needs, ensuring 100% alignment between business requirements and technical solutions.
- Optimized Oracle Discoverer queries, reducing report execution time by 40%, enhancing decision-making efficiency.
- Worked with Accounts Payable (AP), Accounts Receivable (AR), and General Ledger (GL) modules for financial and accounting functions.
- Gained hands-on experience in Procure-to-Pay (P2P) and Order-to-Cash (O2C) cycles to streamline financial processes.
- Programming Language: PL/SQL
- Tools Used: Oracle EBS r12, Orbit Analytics, Oracle Discoverer.

## Harvard Groups

*Sept 2022 – Jan 2024*

- Developed and maintained 5+ Oracle Apex web applications in Harvard, integrating HTML, CSS, and JavaScript to enhance UI/UX.
- Integrated third-party APIs in Harvard, improving application functionality and user engagement by 25%.
- Created comprehensive documentation for reporting and application development processes, enabling faster onboarding and reducing knowledge transfer time by 50%.
- Programming Language: Java Script, PL/SQL, HTML, CSS.
- Tools Used: Oracle Apex

## Skills

---

**Languages:** Java, PL/SQL, SQL, JavaScript, HTML5, CSS, React.js.

**Technologies:** Oracle EBS, Oracle APEX, Oracle Discoverer

## Certificates

---

- Certification by FUEL organization in JAVA.
- Certification by Infosys in JAVA.
- Certification by Edureka in AI.

## Achievements

---

- Winner of Purushottam Karandak and runner up of Firodiya Karandak.
- Proud member of IEEE organization.
- Lead cricket team as captain for university games and other tournaments.

## Awards

---

- Best Anchor (Spandan).
- Best Competitor (MPULSE).
- Player Of Tournament (Fujitsu Cricket League).
