## WORK EXPERIENCE

### Integration Consultant MTX Group Inc.

08/2020 - Present

Jaipur, India

#### Responsibilities

- Developed and deployed **RESTful APIs** using **RAML 1.0** and **Boomi API Service**, enabling seamless data exchange and improving system efficiency by **30%**.
- Designed and reviewed enterprise-level **integrations** for point-to-point, **API-led, Pub-Sub**, and **orchestration** patterns, enhancing system scalability.
- Implemented **API-led connectivity** (Experience, Process, and System layers) for efficient and reusable integrations across multiple systems.
- Leveraged **DataWeave** and **Boomi maps** for **data transformations** and validations, reducing manual errors by **40%** and streamlining data workflows.
- Integrated **Salesforce, SFTP, Database, and SMTP** connectors for seamless data exchange between systems.
- Designed batch jobs and automated processes using **MuleSoft** and **Boomi**, optimizing data migration and synchronization, cutting manual processing time by **25%**.
- Administered API and process management using **Anypoint API Manager** and **Boomi API Management**, enforcing security policies, rate limiting, and efficient license usage.
- Led the **integration team**, coordinating with team members to remove blockers, facilitate communication, and ensure smooth project delivery.
- Managed version control with **BitBucket**, **Azure Repos**, deployed applications to **CloudHub** using **BitBucket** and **Azure Pipelines** for automated CI/CD.

### Apex Integration Developer MTX Group Inc.

07/2022 - 04/2023

Jaipur, India

#### Responsibilities

- Built APIs enabling secure **OAuth** access via **Connected Apps** and **Named Credentials**.
- Designed custom sharing rules to safeguard sensitive data and implemented Apex callouts for external API integration.
- Implemented custom Apex wrapper classes for parsing and mapping 50+ fields between Salesforce and external APIs, ensuring data integrity and reducing manual data entry errors by **30%**.
- Improved the performance of **SOQL** queries and Apex code, optimizing for large data sets and reducing query execution time by **50%** during integration tasks.
- Wrote comprehensive test classes for Apex callouts and integration logic to achieve 95%+ code coverage and ensure deployment readiness.
- Implemented **field-level security** and sharing rules in Apex to ensure that sensitive customer data is protected during integrations, leading to a **100% compliance** rate with organizational security policies.

## SKILLS
