WORK EXPERIENCE

INFOSYS, Pune— Senior Associate Consultant

March 2020 - PRESENT

TIBCO Software, Pune— Associate Consultant

October 2017 - March 2020

SUMMARY

- 4+ years of experience in Enterprise Applications Integration, 2 years of experience in Mulesoft Platform.
- Good technical experience on various components of Anypoint Platform like Anypoint API Platform, Enterprise Service Bus and Messaging Queues.
- Experience in designing and developing RAML based APIs using Anypoint API Platform.
- Experience in Web Services approach for Service Oriented Architecture (SOA) and publishing Web Services both SOAP and REST (consume and implementations) that include components SOAP, WSDL, XSD.
- Developed Mule ESB projects for services with synchronous and asynchronous mule flows.
- Used several connectors like HTTP, Database, Salesforce, Email, File, JMS, Java and Logger.
- Experience in building complex Mule Flows, Scopes, Error Handling, Message Filters, Validation, Transformation and Flow Controls.
- Worked on Waterfall and Agile methodology.
- Good exposure to Continuous Integration and Delivery tools surrounding Anypoint Platform. Used CI/CD tools like Jenkins, GitHub, Maven and Anypoint Runtime Manager.
- Good experience in Software Development Life Cycle (SDLC) including Requirement Analysis, Design, Development and Testing of software applications.
- Strong team player. Worked on projects with different team sizes.
- Received client appreciations for my consistent dedication towards providing quality work.

EDUCATION

BE | Computer Science

Pimpri Chinchwad College of Engineering, Pune University

2013-2017

SKILLS

Mulesoft : Mule ESB- 3, 4, Anypoint Platform, Anypoint Studio, Cloudhub, Dataweave 2.0, RAML

TIBCO : BusinessWorks 5, 6, Container edition, EMS, Administrator, Adapters & Plugins-SMTP, Salesforce, File, Database

Other tools: Apigee, GIT, Jenkins, Maven, JIRA, AWS, Docker

CERTIFICATIONS

1. **Mulesoft Certified Developer (Mule 4)**
2. **Tibco BusinessWorks 6 Certified Professional**
3. **Tibco BusinessWorks 5 Certified Professional**
4. **AWS Certified Developer-Associate**

LANGUAGES

English, Marathi, Hindi, Konkani

INTERESTS

Traveling, Painting, Dance

PROJECT EXPERIENCE

Client: Intel

July 2020 - Present

Role: Mulesoft Developer

Responsibilities:

- Design and develop RESTful/ SOAP Web Services using MuleSoft Anypoint API Platform to provide an interface to various third-party applications.
- Worked on developing batch integrations to transfer data in bulk between enterprise applications using MuleSoft Enterprise Service Bus.
- Participate in requirements gathering sessions with functional users.
- Involve in API design sessions to decide various resources within each API, message schemas, message formats and authentication.
- Develop RAML documents using Anypoint API Platform. Provide mocking services to application developers.
- Implement the APIs using API-Kit Router in Anypoint Studio.
- Use Database, HTTP, Email, JMS, ObjectStore, Salesforce connectors to implement API Methods.
- Migrate MuleSoft applications from 3.8 to 4.3
- Unit test the APIs. Support user testing.
- Use CI / CD tools like Jenkins, Maven and GitHub during the development and deployment.
- Provided technical documentation for each application developed in this project.

Technologies and Tools: Anypoint Studio 6.6, 7.5, 7.12, Mule ESB 3.9, 4.3, Connectors-Database, Email, HTTP, ObjectStore, Salesforce, Web Service Consumer, XML, Amazon-s3, Secure Properties, Cloudhub, Apigee, Jenkins, Maven, GitHub, AWS, MSSQL, Denodo

Client: Vodafone

March 2020 - July 2020

Role: Tibco Developer

Responsibilities:

- Developed business processes by configuring shared resources, creating process definitions, creating activities, configuring message transports using TIBCO business works.
- Involved in requirement gathering discussions with the client team.
- Worked with designers to understand the architecture and implementation using various components.
- Developed REST and SOAP web services
- Extensively used business works to do the complex data mapping transformations.
- Created BW EAR files containing process adapter archives and deployed them by configuring in Administrator. Further all the process engines adapter components had been started to check whether it performed as desired.
- Used GIT for version controlling.
- Unit-tested developed business interfaces and resolved development issues found during unit testing.
- Creating test case scenarios and testing the services against backend in link-test environment.
- Creating and Maintaining release documentations for other teams to deploy and support the applications in higher environments.
- Coordination with other teams to build quality products and deliver tasks on time.

Technologies and Tools: Tibco BusinessWorks 5, Tibco EMS, Tibco Administrator, Oracle DB, SOAP, REST, JIRA, Jenkins, Maven, GitHub, Nexus
