## SUMMARY

A Senior software developer with 4.4 years of total experience in the IT industry and relevant experience in Mulesoft for API Development and Integration. As a technically skilled and Certified Mulesoft Developer searching for new opportunities for better prospects.

## WORK EXPERIENCE

### **NTT Data Services, Pune** — *Data Engineering Engineer*

January 2022 - PRESENT

- Led Kask America Project, developing Mulesoft APIs for 7 objects, enabling seamless bi-directional flow between Salesforce and Netsuite; successfully launched project and it is currently live in production.
- Implemented Mulesoft APIs for 2 other projects as a developer, including System API, Process API, and Experience API, leveraging Led Connectivity practices. Designed comprehensive RAML with traits and resources. Utilized Dataweave for logic and integrated various connectors like object store, Netsuite, Salesforce, loggers, request, and secure properties.
- Got Awards from clients for good performance and on time deployment. Also, for great teamwork and leadership quality.
- Enhanced software functionality by identifying and resolving complex technical issues.
- Optimized code performance for improved user experience and system efficiency.
- Mentored junior developers, fostering professional growth and enhancing team productivity.

### **Infosys, Pune** — *Systems Engineer*

September 2019 - January 2022

- Caterpillar project was based on O365 exchange where we have to support client outlook and other MS apps. Technologies : O365 exchange ,outlook, MS platforms.
- Got Quarterly performance award for parallelly handling 2 projects and met all the timelines.
- Mentored juniors and teammates for their better growth.
- Got Appreciation letter from a client for great leadership and efficient resolution.
