PROFESSIONAL SUMMARY

I am a proficient Salesforce CRM expert with 3 years of experience, specializing in Salesforce Lightning, Apex, Visualforce, Aura, and Lightning Web Components. My expertise includes architecting and implementing robust solutions, customizing Salesforce portals, and optimizing performance for enhanced user experience. I have a proven track record of delivering projects on time and within budget, demonstrating strong project management skills.

Committed to quality, I focus on delivering high-quality, scalable solutions that exceed client expectations. I excel in effective collaboration with stakeholders and am dedicated to continuous learning to stay updated on the latest Salesforce developments.

SKILLS

Lightning Web Components	HTML & CSS	Git	Javascript	C++	Java	Data loading
Sync and Async Apex	Aura	VisualForce	API	Admin	Flows	Deployments

PROFESSIONAL EXPERIENCE

Salesforce Developer

Growth Natives Pvt. Lmt.

📅 08/2021 - Present

PROJECTS

B2B Logistics Portal

Unified B2B logistics management through Salesforce Community by integrating data from multiple sources using Sync and Async Apex and Lightning Web Components.

- Facilitated logistic management by integrating data from multiple external sources onto a unified Salesforce portal for B2B clients. Collaborated directly with clients to gather requirements and address feedback.
- Engineered a batch class to efficiently retrieve data from REST API.
- Designed and implemented Lightning Web Components to enhance user experience and functionality.
- Developed custom solutions to extract REST API data into Excel format for improved data visualization.
- Implemented various JavaScript libraries such as calendar.js to enrich user interfaces.

Business Process Enhancement

Overhauled the Salesforce organization and CPQ processes of a company to address issues of clutter, sluggish performance, and numerous bugs.

- Improved CPQ processes and existing functionalities to meet business requirements.
- Developed new features using Apex, Lightning Web Components, Visualforce, and Aura.
- Collaborated with stakeholders to deliver solutions that met business goals and requirements.
- Maintained direct communication with clients to ensure project deliverables met their expectations.
- Managed project tasks and sprint planning using Jira, ensuring alignment with project objectives

ERP Integration Solution

Led seamless Salesforce-ERP integration, facilitating data exchange and synchronization with scheduled Apex jobs and batch classes.

- Integrated Salesforce system with Rent Manager ERP for seamless data exchange.
- Engaged directly with clients to understand integration requirements and provide solutions.
- Developed scheduled Apex jobs to automate data retrieval on a daily basis from Rent Manager and storage into Salesforce objects.
- Engineered batch classes for initial data migration and synchronization between systems.
- Managed data export, import, and validation processes for sales cloud migration.
- Created and maintained project documentation and flow diagrams for reference and future maintenance.

PROJECTS

CPQ Product Pricing Utility

Empowered clients with efficient CPQ product management solutions, leveraging Sync and Async Apex and Lightning Web Components.

- Implemented a solution that allows clients to efficiently update CPQ product prices in bulk with just one click.
- Engineered a versatile batch class to update multiple objects simultaneously using generic object data types.
- Developed dynamic Lightning Web Components with customizable filters and related tab functionality.
- Executed data loading processes for CPQ products multiple times.
- Prepared comprehensive technical documentation to support package deployment and usage.
