

TEJAL TUPE

2.5 years of experience in Tata Consultancy Services (TCS) in development, design and testing roles across industry domains. Having a rich hands-on experience with all the stages of SDLC (mainly Agile) including designing, developing, testing and rolling out complex web-services. Has knowledge on development and performing enhancements in Axway.

1.5 years of experience in design and development in Mule 4. Well experienced in API-Led Design Principles and implementation of RESTful APIs.

Key Customers :

- Roche, Pharmaceutical Manufacturing Company
- Mahle, Automobile parts Manufacturing Company

SKILL SET

- **Technical Skills :** - MuleSoft Anypoint Platform
 - MuleSoft Anypoint Studio
 - Java
 - EDI, Axway BOM, Axway TSIM
- **Soft Skills :** - Enthusiastic Team Player
 - Strong Problem Solving Abilities
 - Learning Attitude

BACKGROUND

- Effectively worked as a developer on MuleSoft to facilitate integration and used Mule components including JMS, DB, Salesforce, WebService Consumer Connectors and have hands-on experience using Mule Connectors like HTTP, Database, FTP, Scatter-Gather, File and firm knowledge of Salesforce.
- Hands-on experience of widely used integration patterns, connectors and designing of APIs and well accustomed with AGILE based methodologies.
- Worked on Axway Business Object Modeler to develop maps (EDI translation using Axway specific language).
- Expertise in workflow configurations in Axway TSIM and monitoring workflows in Axway Object Browser.
- Knowledge on developing inbound (IDOC) and outbound (EDI) maps.
- Knowledge on EDIFACT and ANSI X12 transactions.

EDUCATION

- **B.E. in Instrumentation Engineering**, R.A.I.T, Nerul, Navi Mumbai (07/2015-05/2019)
- **CBSE XII**, J.H. Ambani School, Lodhivali (04/2014-05/2015)
- **CBSE X**, J.H. Ambani School, Lodhivali (04/2012-05/2013)

WORK EXPERIENCE

TOPICS	DESCRIPTION
Professional Summary	<p>2.5 years of IT experience in design and development of IT Solutions. Experience includes API designing and implementation, Web Services, RESTful APIs, Requirement Analysis, Microservices Architecture and Integration Platforms.</p> <p>MuleSoft experience is of 1.5 years with regards to designing and development of APIs which includes requirement gathering and deployment.</p>
Professional Experience in MuleSoft, at Tata Consultancy Services (Client: Roche) (Aug 2020-Present)	<p><u>Project 1: Integrating APIs to Salesforce (Approach: API-led Connectivity)</u></p> <p>Responsibilities:</p> <ul style="list-style-type: none"> Gathering of information and keen analysis of the different requirements. Creating a RAML API specification in Design Center of Anypoint Platform as per the requirements provided with RAML standards using traits, schemas and parameters. Implementing API in Anypoint Studio using Salesforce Connectors. Designed system API to handle and convert JSON payload into required file formats. Data transformation from one format to another using DataWeave, like JSON to XML and vice-versa. Worked on various Request-Response data format combination to transform and orchestrate data between communicating parties-worked on different types of schemas i.e. JSON, XML. Added security policies such as SLA tiers to API using API Manager. Design modifications and enhancements as per the client feedback.
	<p><u>Project 2: MuleSoft Integration with Solace</u></p> <p>Responsibilities:</p> <ul style="list-style-type: none"> Gathering of information and keen analysis of the different requirements. Creating a RAML API specification in Design Center of Anypoint Platform as per the requirements provided with RAML standards using traits and resource types. Creation of Service on Solace cloud and configuring JMS Connector to connect with Solace cloud in Anypoint Studio. Implementing API in Anypoint Studio using JMS Connector. JMS module is available in Mule 4, use JMS Connectors to publish message on Solace cloud which can be done in two ways either topics or queues. Data transformation from one format to another using DataWeave, like JSON to XML and vice-versa. Logging the message pushed using topics or queues to console. After publishing message consuming same messages at subscriber side using JMS Connectors Consume Operation. Design modifications and enhancements as per the client feedback.

TOPICS	DESCRIPTION
Continued...	<p><u>Project 3: Consuming SOAP WebService in MuleSoft</u></p> <p>Responsibilities:</p> <ul style="list-style-type: none"> • Requirements gathering and analysis which includes understanding WSDL file. • Creating a RAML API specification in Design Center of Anypoint Platform as per the requirements provided with RAML standards using traits and resource types. • Implementing API in Anypoint Studio using Web Service Consumer Connector. • Data transformation from one format to another using DataWeave, like JSON to XML and vice-versa. • Design modification and enhancements as per client feedback.
<p>Professional Experience at Tata Consultancy Services (Client: Mahle) (Aug 2019- Jul 2020)</p>	<p><u>Project Description:</u></p> <ul style="list-style-type: none"> • Making of a Mapping Specification Documents: Worked as a part of RnD team to analysis and design the mapping as per the customer requirements. • Structure Design: Designing of customized input and output format descriptions (FDe). • Development and Implementation: Used BOM to develop conversion descriptions (CDe) and transformation steps. <p>Responsibilities:</p> <ul style="list-style-type: none"> • Major part of the work includes transformation of data from legacy to Axway specific format. • System understanding of the existing application requirements and working closely with the Business & Technical Stack Holders to manage ongoing changes. • Followed Agile practices and worked closely with other team members to plan, design and develop robust solutions in a timely manner and given best customer satisfactory solutions. • Extraction of files from IBM Sterling Integrator (legacy system).
