EXPERIENCE

Web-Developer, Oriong Digitech Solutions Pvt Ltd

Nov 2023 - Present

- **User Interface (UI) Design:** Translating wireframes and mockups into responsive and visually appealing user interfaces using HTML, CSS, and JavaScript.
- **Client-Side Scripting:** Implementing interactive features and functionalities using JavaScript frameworks and libraries like Bootstrap React.
- **Cross-Browser Compatibility:** Ensuring that web applications work seamlessly across different browsers and devices by testing and debugging frontend code.
- **Performance Optimization:** Optimizing frontend code for faster loading times and improved user experience, including image optimization, code minification, and lazy loading techniques.
- **Accessibility:** Ensuring that web applications are accessible to users with disabilities by following accessibility standards and guidelines such as WCAG (Web Content Accessibility Guidelines).
- **Server-Side Programming:** Developing server-side logic and APIs using programming languages like Node.js.
- **Database Management:** Designing and maintaining databases to store and retrieve data efficiently, using technologies like MySQL.
- **API Integration:** Integrating third-party APIs and services to extend the functionality of web applications, such as payment gateways, social media APIs, and geolocation services.
- **Scalability and Performance:** Designing backend systems to handle high traffic loads and optimizing performance through techniques like caching, load balancing, and horizontal scaling.
- **End-to-End Development:** Taking ownership of both frontend and backend development tasks to build complete web applications from start to finish.
- **System Architecture:** Designing the overall architecture of web applications, including the selection of technologies, the organization of codebase, and the deployment strategy.

Web-Developer {Intern}, Advance Infotech solutions pvt ltd

Jun 2022 - Jan 2023

- Motivated and detail-oriented Web Developer Intern with hands-on experience in designing, developing, and optimizing web applications. Proficient in front-end technologies like HTML, CSS, JavaScript with back-end skills in SQL and databases

PROJECTS

OrionG Digitech Solutions Pvt Ltd Website

www.oriong.in

Digital marketing and web development services to provide our clients with comprehensive solutions for their online presence. We understand through various digital channels, you can effectively build your brand and increase brand awareness.

Caputure Photography Studio Website

Designed and developed a photography portfolio website to showcase high-quality images and enhance online visibility. Implemented a user-friendly interface with responsive design, interactive galleries, and SEO optimization

Shopping Site

Developed a responsive and user-friendly shopping website using HTML, CSS, and JavaScript. The project featured a clean and modern UI, an interactive product catalog, a functional shopping cart, and a seamless checkout process.
