SUMMARY

Dedicated and motivated MuleSoft Developer with hands-on experience in designing, developing, and integrating solutions using the MuleSoft Anypoint Platform Expertise in developing high-performance APIs, connectors, and dataexchanges to facilitate data exchange between systems. Demonstrated expertise in building and configuring ELK (Elasticsearch, Logstash, and Kibana) dashboards for real-time monitoring and log analysis.

EXPERIENCE

09/2021 - Present

Mumbai

Systems Engineer

Infosys

- Designed and developed MuleSoft integration solutions to connect applications and systems, resulting in improved data continuity and efficiency.
- Worked closely with Anypoint Platform to monitor and manage the integration, including Anypoint Studio, Anypoint Exchange, and Anypoint API Manager.
- Designing and creating APIs using Anypoint Studio.
- Created and customized interactive Kibana dashboards and visualizations to provide real-time insights and facilitate data-driven decision-making.
- Collaborated with cross-functional teams to define data requirements and develop customized dashboards tailored to specific business needs.
- Stayed up-to-date with the latest ELK stack features and industry trends to continuously enhance data analysis capabilities.

EDUCATION

06/2017 - 06/2021

Bachelor of Engineering - Information Technology

University of Mumbai

SKILLS

Mulesoft	Elastic search	Data Mapping and Transformation	API Development and Management		
MuleSoft Integration	RESTful and SOAP APIs	Data Visualization	Monitoring and Alerting	Sql	
Html	css	gitlab	Integration
