SUMMARY

All my life, computers have always amazed me. From building block code games to Java GUIs, seeing things I made appear on my screen made my eyes widen. Programming makes me feel like a magician, it allows me to manipulate my environment (albeit a virtual one) in a way that only sorcerers could. More than that, it gives me a way to express my creativity. Computer projects offer a brand new medium of expression that is unlike any previous mediums.

EDUCATION

Bachelors of Technology

GLA University • Mathura • 2024

Intermediate

Aryawart Inter College • Kanpur, India • 2020

High School

Aryawart Inter College • Kanpur, India • 2018
