EXPERIENCE

Razzo Technologies Nov 2024 - present | Hyderabad, India

Associate Software Engineer - React.JS | Material-UI | JavaScript | JQuery

Currently, I work as a Associate Software Engineer at Razzo Tech, where I use React.js, Material- UI, JavaScript, and jQuery to build dynamic and responsive user interfaces. I integrate the frontend with a Python/Django backend, utilizing Swagger for API documentation. I am actively involved in two distinct projects

- AI Class Master (School Edition) – A Learning Management System (LMS) tailored for schools, leveraging artificial intelligence to enhance teaching and learning experiences.
- AI Class Master (Corporate Edition) – A separate version of the LMS designed for corporate training, using AI to optimize learning modules and employee development.

Both projects aim to deliver intelligent, AI-driven solutions for education and corporate training, with a strong focus on creating seamless user experiences and efficient backend integration.

SpyD Technologies June 2024 - Nov 2024 | Hyderabad, India

FULL-STACK Developer | React.JS | Tailwind CSS | Node.JS | Git

As a MERN Stack Developer, I specialize in React.js, Tailwind CSS, and Node.js, contributing to various client projects. I have been involved in the development of applications like HRMS (link) and E-Education, delivering seamless and scalable solutions for businesses. My work focuses on creating intuitive front-end interfaces and efficient back-end systems, ensuring the highest standards of performance and user experience.

Nxtwave Disruptive Technologies Training | Oct - 2023 - Jan 2024

- Industry Ready Certification in Full-stack Development
