PROFESSIONAL SUMMARY

As a motivated and detail-oriented student pursuing a degree in BTech in CSE at CGC Landran , I am eager to apply my academic knowledge and technical skills to a dynamic IT internship. My coursework in Web development has provided me with a solid foundation in programming languages such as HTML, CSS, and JavaScript, as well as exposure to other relevant technologies or tools such as Python, SQL.

Skills

- | | |
|-------------------------------------|---|
| • Database Management System | MySQL |
| • Programming Language | SQL, Python, JAVA(Basic) |
| • Framework | Node.js (Runtime Env.),Bootstrap |
| • Web Technologies | HTML, CSS, JavaScript, Responsive design, Figma |
| • Library | React.js |

WORK EXPERIENCE

Pansofic solutions

Ambala, India

Front-end Web developer

July 2023 – August-2023

- During this internship, I contributed to various stages of web development projects, enhancing my skills in HTML, CSS, and JavaScript while working on real-world applications.
- In addition to my internship, I successfully completed an advanced-level project that involved creating a comprehensive web application.
- This project allowed me to apply and further develop my technical skills and demonstrate my ability to deliver functional and aesthetically pleasing solutions.

PROJECTS

Fitness Center Web Application

July 2023

- This is a simple and intuitive weather web application built using HTML, Bootstrap CSS, JavaScript integrated with a weather API. This app allows users to get real-time weather information for any city in the world.
- <https://hjindal003.github.io/>

Weather web Application

March 2024

- Developed a responsive weather web application that allows users to input a city name and retrieve current weather information, including temperature, weather description, humidity, and wind speed.
