SKILLS

Mobile Development: Flutter, REST APIs.
Programming Languages: C, C++, Java.
Web Development: React-Js, Html, CSS, Js.
Backend Development: Node.js, MySQL
Version Control: Git, GitHub

EXPERIENCE

Simple Mudra private limited Android-Ios App Developer	Nov 2024 – Present Noida,(office)
I collaborated with designers to implement UI/UX designs, ensuring responsive and user-friendly applications for mobile and tablet devices. I utilized state management libraries like Provider and I have make a sales app for company and just I am Working in this app . and I have already completed one sales project for this company	
SCOGO-Network Private Limited Android-Ios App Developer	June 2024 – Nov2024 Mumbai, [Remote]
I collaborated with designers to implement UI/UX designs, ensuring responsive and user-friendly applications for mobile and tablet devices. I utilized state management libraries like Provider and Bloc, adhering to clean architecture principles to streamline app design and reduce bugs. I integrated APIs and payment gateways, including Razorpay, while gaining proficiency in handling code repositories using GitHub. Additionally, I developed various app screens such as admin panel screens, calling screens, dialog screens, and home screens, showcasing versatility in app development.	
Web Development Intern (6-months) Numeric Infosystem Private Limited company	Jan 2022 – July 2022 Gwalior, M.P. [Hybrid]
In my 6-month internship as a full-stack web developer specializing in React and Node.js, I gained hands-on experience managing frontend, backend, and database operations (MySQL). I developed user-friendly, fully responsive UI interfaces, implemented advanced features like filter and search bar logic, color selection, and integrated payment gateways. I also built a dynamic admin panel enabling real-time delivery assignments and seamless buyer-seller interactions. Additionally, I created APIs for smooth functionality, established connectivity between the backend, frontend, and database, and utilized Multer for backend file handling.	

PROJECTS

HRA App for company

Developing an HRA (Human Resource Analytics) app using Flutter, focusing on efficient UI/UX design and seamless user experience. Implementing state management solutions and RESTful API integrations to enhance app performance and data handling. Collaborating with team members to refine features and ensure scalability and maintainability of the codebase.

Sales App for company in flutter

Developed an Employee Sales App using Flutter, focusing on creating a seamless user experience with a responsive and intuitive interface. Implemented state management using Provider and Bloc to enhance app performance and maintain code scalability. Integrated APIs for real-time data synchronization, designed and developed key app features such as sales tracking, user authentication, and analytics dashboards. Ensured cross-device compatibility for mobile and tablet platforms and incorporated secure payment gateway integration for transactions. Utilized GitHub for version control and collaboration, following best practices in clean architecture and responsive design.

AI Based App in flutter

Just I am working in this app as a flutter developer in SCOGO Network private limited company and I have made login and admin screens and calling screens, home screen and dialogs and drawer and bottom navigation bar for app and integrate the Api's in app and create teams' pages and appbar for this app.

Cloths shopping website

I developed a responsive clothing shopping website using React.js for the frontend and Node.js for the backend, with MySQL for database management and REST APIs for smooth communication between the server and client. The website offers a user-friendly experience, allowing customers to easily browse and purchase clothing based on their size.

CERTIFICATIONS

- Celonis Certified: Rising Star-Technical
- NPTEL Certificate of cloud computing.
- AWS Academy Cloud Foundation
- Salesforce certified

ACTIVITIES

- CR from 2021 to 2024 in my Class
- Participated in national conference (MPCT- Gwalior)
